Communications Systems, Inc.

2014 Annual Report

Communications Systems, Inc.
World Headquarters
Minnetonka , MN

SUTTLE

Bruce Blackwood
President

2014 was a record year for Suttle as we continued with robust revenue growth of 24% to \$67 million. The legacy products have continued to provide a healthy contribution to the business, but focus and investment remain on preparing our capabilities for the emerging Gigabit Broadband market. The new Futurelink™ and Mediamax™ brands are performing well, and are accelerating the transformation of Suttle from jacks-and-wallplate business to a solutions business for the broadband market. We are certain to face a number of challenges in 2015 as our customers transition to Gigabit network architectures, but the market is ripe with new customer opportunities and we are in pursuit.

**TRANSITION
NETWORKS®**

Scott Otis
President

In 2014, TN implemented several important steps to secure our plans for a return to growth, including a renewed commitment to focus on core media conversion opportunities in exciting growth market segments. We also streamlined our inventory by greatly reducing the number of finished goods parts we stock, and implemented several processes to better manage our supply chain and forecasting systems, and reduce lead times to our customers. While we are disappointed in the year over year decline in revenue of 2%, we are encouraged by new opportunities with higher speed converter devices in the enterprise segment, and with market share gains at certain service providers with our traditional media converter products. We continue to be opportunistic as our customers look to TN for higher bandwidth solutions, or where additional transmission distance or security are needed. We are proud of the team building the new Transition Networks, and look forward to a much brighter future.

JDL Technologies

Scott Fluegge
President

2014 was a challenging year for JDL Technologies as we accelerated our shift in strategic focus, aimed at achieving a more balanced mix of revenue streams across commercial, healthcare and education verticals over the long term. Aggressive expansion of our IT managed services program earned us a place among the Elite 150 MSPs in North America, as ranked by The Channel Company. Launch of a robust compliance practice under the JDL HealthTech brand reflects our commitment to the \$1.3 Billion Florida healthcare market, and resulted in substantial growth of our client base in 2014. JDL Technologies also won two important contracts to supply IT services and infrastructure to our largest public education client beginning in 2015. Our entire team is excited about the challenges and opportunities facing us in 2015.

CSI

Roger Lacey
CEO

Mr. Lacey has been a director of the Company since 2008, was appointed Vice Chair in September 2013, and subsequently appointed Interim Chief Executive Officer in June 2014. On February 27, 2015 he was appointed as the Company's Chief Executive Officer. Mr. Lacey was Senior Vice President of Strategy and Corporate Development for 3M Corporation until his retirement in 2013. In addition, from 2000 until his retirement, he was 3M Corporation's Chief Strategy Officer and later head of mergers and acquisitions. (CEO letter included in 10K)

To Our Shareholders,

We achieved a number of significant milestones in 2014 as we continued to implement the restructuring and revitalization program commenced in 2013. While challenges remain, we are seeing early evidence of our progress.

Our largest business unit, Suttle, achieved its third consecutive year of double-digit revenue growth and increasing margins as customers continued to embrace its innovative portfolio of FTTx products and core FutureLink™ brand. Although revenue at our Transition Networks and JDL Technologies segments declined in 2014, we have taken important steps to position each of these businesses for future growth and enhanced profitability.

We are transforming CSI into a more entrepreneurial and efficient organization, while refining the growth strategies of each of our business units. In our manufacturing segments, we continue to increase our investment in R&D and build our IP portfolio.

I am grateful for the hard work and dedication of our employees and active Board as we completed the first full year of our transformation. We are making good progress, and I am excited about the opportunities we see in 2015.

Three Strategic Levers

We continue to execute on three strategic levers designed to enhance CSI's financial performance and improve shareholder value:

- 1. Restructuring Our Approach to Corporate Management.** We implemented a management structure that encourages both accountability and autonomy at each of our business units. We are developing our business leaders and delegating greater decision-making power to them. We have also strengthened our team, adding over 20 key industry-experienced people since the start of 2014.
- 2. Focusing on Corporate Costs and Productivity.** We reduced CSI's corporate costs by approximately \$1 million in 2014 and, through our substantial lean operations program, expect additional cost savings of approximately \$1 million in 2015. We also aim to reduce our corporate tax rate by at least 500 basis points in 2015 through a comprehensive tax management program.
- 3. Driving the Entrepreneurial Spirit.** We are instilling an entrepreneurial, growth-oriented mindset throughout our organization. This includes building shareholder value by assessing and optimizing our portfolio of businesses. We will continue to pursue organic growth, but also will selectively consider acquisitions and, where appropriate, spin-offs or dispositions.

Looking Ahead

When I became Interim CEO last June it was with a commitment that we would identify a permanent CEO by June 2015. Although we have made considerable progress in implementing the first phase of our recovery plan, the business remains volatile and to that end the Board requested that I might remain as CEO to continue to shape this dynamic company for a significant future.

I want to share just a few reasons why I am optimistic about CSI's future.

Suttle continues to innovate and provide reliable solutions for Gigabit broadband deployments, among other areas, while investing in new product development. Approximately 30% of Suttle's portfolio is comprised of new products launched in 2014. New product launches targeted for 2015 are expected to expand the current portfolio by another 25%. These investments bolster Suttle's growth outlook.

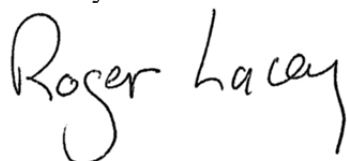

Transition Networks has streamlined its inventory and captured efficiencies in the supply chain while focusing its business on attractive growth categories, including solutions that overcome the bandwidth, distance and security challenges of copper networks. By stepping up investment in R&D and professional engineering staff, Transition Networks aims to deliver an enriched product portfolio, higher revenues and improved margins in 2015 and beyond.

JDL Technologies is expanding its managed services offering across new verticals and geographies. JDL's managed services recurring revenue stream approximately doubled from 2013, driven by the success of its HIPAA-compliant IT services franchise in Florida's healthcare market. Over the long-term, a greater mix of managed services revenue should mitigate historical volatility in JDL's period-to-period revenue from the education sector, which often depends on the availability of federal funding initiatives. JDL Technologies remains a key player in providing IT services to the education sector, and in March 2015 was awarded a five year, \$83 million contract by the School Board of Broward County to provide network services to the K-12 public schools.

Finally, we have a strong balance sheet with minimal long-term debt, providing us with the financial flexibility to continue to implement our restructuring and revitalization initiatives, and pursue attractive growth opportunities. It also has allowed us to return value to shareholders through fifty consecutive quarters of dividend payments.

Overall, we made significant strides in 2014 and we believe that the visibility of these actions will become more apparent as we move through 2015.

Sincerely

Roger H.D. Lacey
Chief Executive Officer

“In 2014 all our businesses continued to make solid progress in product development and market focus. This will position us well to realize CSI's significant potential for a breakout value change.”

**- Curtis A. Sampson
Chairman & Founder**

SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2014

Commission File Number: 001-31588

COMMUNICATIONS SYSTEMS, INC.

(Exact name of registrant as specified in its charter)

Minnesota
(State or other jurisdiction
of incorporation or organization)

41-0957999
(Federal Employer
Identification No.)

10900 Red Circle Drive, Minnetonka, MN 55343

(Address of principal executive offices and zip code)

Registrant's telephone number, including area code: (952) 996-1674

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Name of each exchange on which registered</u>
Common Stock, \$.05 par value	NASDAQ
Preferred Stock Purchase Rights	

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. YES NO

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. YES NO

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company.

See definition of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Act.

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). YES NO

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the Registrant was approximately \$84,159,000 based upon the closing sale price of the Company's common stock on the NASDAQ on June 30, 2014.

As of March 1, 2015 there were outstanding 8,658,784 shares of the Registrant's common stock.

Documents Incorporated by Reference: Portions of the Company's Proxy Statement for its Annual Meeting of Shareholders to be held on May 21, 2015 are incorporated by reference into Part III of this Form 10-K.

PART I

ITEM 1. BUSINESS

(a) GENERAL DEVELOPMENT OF BUSINESS

Communications Systems, Inc. (herein collectively referred to as “CSI,” “our,” “we” or the “Company”) is a Minnesota corporation organized in 1969 that operates directly and through its subsidiaries located in the United States (U.S.), Costa Rica, and the United Kingdom (U.K.). CSI is principally engaged through its Suttle, Inc. subsidiary and business unit in the manufacture and sale of modular connecting and wiring devices for voice and data communications, digital subscriber line filters, and structured wiring systems and through its Transition Networks, Inc. subsidiary and business unit in the manufacture and sale of core media conversion products for telecommunications networks. Through its JDL Technologies, Inc. subsidiary and business unit, CSI provides IT solutions including network design, computer infrastructure installations, IT service management, change management, network security, and network operation services.

The Company maintains a website at www.commsystems.com. Our annual reports on Form 10-K, our quarterly reports on Form 10-Q and our periodic reports on Form 8-K (and any amendments to these reports) are available free of charge by linking from our website to the Securities and Exchange Commission website.

(b) FINANCIAL INFORMATION ABOUT INDUSTRY SEGMENTS

The Company classifies its businesses into three segments: *Suttle*, which manufactures U.S. standard modular connecting and wiring devices for voice and data communications; *Transition Networks*, which designs and markets media conversion products, Ethernet switches, and other connectivity and data transmission products; and *JDL Technologies*, (*JDL*), which provides IT solutions. Effective January 1, 2014, the Company realigned the financial reporting for its business units. As a result of this realignment, all corporate general and administrative expenses that were previously categorized as “Other” are now included within the three business units as fully allocated costs. There are no material intersegment revenues. Further information regarding these segments, including customer and industry concentration, is set forth in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in Note 11 of the Notes to Consolidated Financial Statements under Item 8.

(c) NARRATIVE DESCRIPTION OF BUSINESS

(1) Information Regarding Business Segments

(i) Suttle, Inc.

Suttle manufactures and markets a variety of telecommunication products for outside plant, connectivity and premise distribution under the Suttle brand name in the United States and internationally. Suttle’s new FutureLink™ brand includes solutions for higher speeds, tool-less connectivity and lower cost of ownership, such as copper and fiber connectivity systems, enclosure systems, network interface devices (NIDs), splitters, and active technologies for voice, data and video communications. The new plastic MediaMAX™ brand is optimized for wired and wireless gigabit connectivity to all areas of the home and small office and rounds out Suttle’s premise distribution portfolio, which also includes the traditional metal SOHO Access™, and passive lines, such as xDSL filters, under the SpeedStar™ brand. The Company manufactures 70% of its products at its plants in Hector, Minnesota (Suttle, Inc.) and San Jose, Costa Rica (Suttle Costa Rica, S.A.). The other 30% are purchased from offshore contract manufacturers. Segment sales were \$67,330,000 (57% of consolidated revenues) in 2014 and \$54,346,000 (41% of consolidated revenues) in 2013.

Products

Suttle offers a broad range of critical components for premise, connectivity and outside plant networking. The Company’s customer-oriented approach provides right-sized solutions that leverage existing infrastructure and protect investments as markets and technologies grow and change. With over 100 years of knowledge and experience, Suttle is a reliable partner, delivering innovative, flexible, easy-to-use solutions, lower cost of ownership, and solid customer support.

Outside Plant:

Suttle's outside plant products (OSP) are designed to operate in challenging environments yet be easily accessible, extend the life of the existing network, enhance data speeds, and prevent loss.

Suttle OSP systems are designed for flexibility and scalability in real world applications for both copper and fiber networks. Suttle's FutureLink™ OSP Fiber solutions offer a range of products including terminals, patch-and-splice and splitter enclosures. For copper networks, Suttle's FutureLink™ OSP Copper solutions include building entrance terminals and enclosures.

Premise Distribution:

Suttle provides service distribution products for cost-effective solutions using existing wiring. These products reduce installation time and labor costs, and increase the provider's return on investment. In addition to reducing a service provider's up-front costs, Suttle's high throughput solutions help eliminate potential bottlenecks to "future-proof" the installation, reducing future costs.

Suttle's new MediaMAX™ brand for reliable brownfield and greenfield premise connectivity meets the increasing demand for wired and wireless high-speed connectivity throughout the home and small office. Designed to optimize installation cost and practices while maximizing coverage and bandwidth at the point of use for multiple deployment topologies, this brand includes a premise connectivity and distribution system, featuring plastic modular enclosures and tool-less, snap-in modules to minimize wireless interference.

Suttle's fiber solutions help providers in the deployment of fiber to the premise (FTTP) service under the FutureLink™ brand. These products feature higher speed connections, tool-less connectivity and lower cost of ownership. Our popular SOHO Access™ enclosures and modules provide flexibility and versatility for the termination and management of voice, data, and video connections.

Active solutions distribute service inside the premise through electronic devices. Suttle's active service solutions allow the distribution of service at higher speeds regardless of media, using technologies under FutureLink™ brand products. Passive solutions provide traditional telephony and broadband technology deployments. Through our highly recognized brands — SpeedStar™ and Corroshield® as well as our new brand for higher speeds FutureLink™ — Suttle provides the right solution for wired distribution.

Markets and Marketing

Suttle markets its outside plant and premise distribution products globally to telecommunications companies. Suttle has a solid history of offering long-term solutions to some of the largest global providers by understanding the customer's needs and providing innovative solutions coupled with strong customer support. Suttle also markets its products to service providers, residential builders, and low-voltage installers through distributors and the Company's sales staff. Suttle reaches its targeted customers through a variety of marketing media including trade shows, associations, advertising, social media and the Suttle website.

Suttle recently changed its domain name for electronic communications to SuttleSolutions.com to emphasize our focus on end-to-end customer oriented solutions for communication service providers.

Customers

Suttle's customers include the major communication companies globally, including both telephone and cable service provider companies. The Company's major telephone company customers include Verizon, ATT, and CenturyLink. Suttle serves these major telephone companies directly by Suttle's sales staff and through a select group of distributors. Sales (including DSL) to the major telephone companies, as a group, both directly and through distribution, represented 84% of Suttle's sales in 2014 and 80% in 2013.

Other customers include smaller telephone companies, electrical/low-voltage contractors, home builders, and a nationwide network of distributors. Suttle serves these customers primarily through distributors, but also directly through its sales staff. Sales to cable customers and original equipment manufacturers (OEMs) are made through the nationwide network of distributors and through the Suttle sales staff. Sales to OEMs and other distributors were 9% of Suttle's sales in 2014 and 11% in 2013. Sales to international customers and other customers represented 7% of Suttle's sales in 2014 and 9% in 2013.

Competition

Suttle encounters strong competition in all its product lines and competes primarily on the basis of the broad lines of products offered, product performance, quality, price, delivery, and customer support. In addition, distributors of Suttle's products also market products for one or more of its competitors.

Order Book

Suttle manufactures its products on the basis of estimated customer requirements. Outstanding customer orders at March 1, 2015 were approximately \$2,356,000 compared to approximately \$2,008,000 at March 1, 2014. New orders are generally filled within 60 days. Suttle does not believe its order book is a significant indicator of longer term future results.

Manufacturing and Sources of Supply

Suttle manufactures its products using plastic or metal parts, wire sub-assemblies, fasteners, brackets, electronic circuit boards and other components, most of which are fabricated by Suttle. There are multiple sources of supply for the materials and parts required and the Company is not dependent upon any single supplier, except that Suttle's corrosion-resistant products use a moisture-resistant gel-filled fig available only from Tyco Electronics Connectivity. Although Suttle has not generally experienced significant problems in obtaining its required supplies, from time to time it experiences spot shortages and additional order lead times are required from its offshore suppliers.

Research and Development: Patents

Suttle continually monitors industry requirements and creates new products to improve its existing product line. Although Suttle has historically not relied significantly on patents to protect its competitive position, as a result of duplication of its designs by foreign apparatus manufacturers, Suttle has begun to apply for design patents on a number of its new products.

Research and development consists primarily of designing, prototyping, and testing of equipment and supplies associated with enhancing existing products and developing new products. Research and development costs are expensed when incurred and were \$3,670,000 in 2014 compared to \$483,000 in 2013.

Intellectual Property

The Suttle brand name is a trademark important to its business. Suttle regularly supports this name by trade advertising and believes it is well known in the marketplace. Other important trademarks include FutureLink™ brand umbrella for end-to-end products for outside plant, connectivity and premise distribution; plastic MediaMAX™ and metal SOHO Access™ for small office and home office enclosures and modules; SpeedStar™ for passive premise connectivity; and CorroShield® brand gel that prevents network corrosion.

(ii) Transition Networks, Inc.

Transition Networks, Inc. ("Transition" or "Transition Networks") is based in Minnetonka, Minnesota and also maintains operations in the U.K. Transition designs, assembles and markets media converters, NIDs, network interface cards (NICs), Ethernet switches, Small Form Factor Pluggable modules (SFP), and other connectivity products under the Transition Networks and MILAN brand names. Transition sells its products through distributors, resellers, integrators, and OEMs. These media converters, NIDs, and Ethernet Switch products allow network operators to transmit voice and data across networks and between copper-wired and fiber-optic equipment. Sales by Transition Networks were \$43,174,000 (36% of consolidated sales) in 2014 compared to \$43,857,000 (33% of consolidated sales) in 2013. International sales accounted for 27% of Transition's sales, or \$11,645,000 in 2014, compared to \$13,196,000, or 30% of Transition's sales in 2013.

Products

Transition Networks designs, assembles and sells media converter devices, NIDs, Ethernet switches and other connectivity products that make it possible to transmit telecommunications signals across networks and between systems using different types of media (for example, between copper and fiber optic networks). These products enable customers to integrate fiber optics into their existing network infrastructure as their networks grow, and extend data services to customers at remote locations. Protocols supported include: 10 Gigabit Ethernet, Gigabit

Ethernet, Fast Ethernet, Ethernet, T1/E1, DS3, Circuit Emulation Services (TDM or ISDN over Ethernet or IP), RS232, RS485, OC3, OC12, and more. Transition Networks develops product hardware and software internally, and expenses the related costs as they are incurred. In connection with the sale of its hardware products, Transition Networks provides its customers with a variety of software management options including powerful Orchestration and Element Management System (EMS) software for providing superior service provisioning and monitoring of next-generation Carrier Ethernet 2.0 Services. The Company has been developing and marketing Ethernet-based networking products for approximately 28 years. Transition Networks continues to develop products that address the enterprise, service provider, industrial, government, and security markets.

Manufacturing and Sources of Supply

Transition Networks uses contract manufacturers to manufacture its products in different geographical locations. In 2014, 53% of the total value of its products was manufactured in Asia while the remaining 47% was manufactured in the US. Offshore sources of supply are subject to certain risks, including political risk. The Company has alternate sources of supply for its products in different geographical locations and to date has not had problems obtaining necessary product.

Markets and Marketing

Transition Networks' products are used in a broad array of markets including the federal government, enterprise, service provider, industrial, and surveillance markets. Transition Networks has a broad customer base and its products are used in a variety of applications.

The media conversion product line is used in several applications. The ION and Point System™ chassis-based modular systems are used primarily in telecommunications closets for high-density applications and when multiple protocols need to be supported. Stand-alone media converters are used typically at a workstation or for lower density applications. The line of Ethernet switches is used in last mile access, backhaul, central closet and at the end user stations. The Carrier Ethernet NID line of products addresses the high quality access requirements for both business services and wireless backhaul data communications and telecommunications applications.

Marketing primarily consists of direct marketing using a sales force, tradeshows, trade magazine advertising, on-line advertising, website, email, social media and public relations activities. Transition Networks also provides and participates in advertising and cooperative marketing campaigns with distribution partners.

The Company's "Transition Networks" and "MILAN" brand names are important to its business. The Company regularly supports these names by trade advertising and believes them to be well known in the marketplace.

Research and Development

Transition Networks develops products for the federal government, enterprise, service provider, security and industrial markets. This includes developing converters for emerging protocols and existing protocols in new markets, as well as new industry standards. Some of these products include remote management devices built on the IEEE® 802.3AH, 802.3AG, ITU-T Y.1731 standards, Metro Ethernet Forum (MEF)® and MEF 2.0 standards, and Power Over Ethernet devices based on the IEEE® 802.3AF and IEEE® 802.3AT standards. Some design efforts are paced by the development of critical components such as integrated circuits and optical transceivers.

Research and development consists primarily of designing, prototyping, and testing of equipment and supplies associated with enhancing existing products and developing new products. Research and development costs are expensed when incurred and were \$4,166,000 in 2014 compared to \$2,277,000 in 2013. Transition Networks significantly accelerated its research and development activities in 2014 to improve its product portfolio.

Transition Networks' conducts its research and development operations in the United States and the United Kingdom. The US location has a global engineering and product development leadership responsibility. The UK facility was added in 2011 as a result of the Patapsco acquisition. The UK location focuses on engineering and support for Circuit Emulation Products as well as logistics and sales activities.

Competition

Transition Networks faces strong competition across its entire product line. A large number of competitors exist for high volume products in the Fast Ethernet and Gigabit Ethernet families, as well as the NIDs. Low cost competitors from China and Taiwan are strongest in Asian, Europe, Middle East, and Africa (EMEA) and South American markets, but have had limited success in the North American market for the media converter products. Transition Networks also faces new competitors as it enters new markets for industrial products, security market, and higher performance devices for the service provider market.

Order Book

Outstanding customer orders for Transition Networks products were approximately \$1,683,000 at March 1, 2015 and \$2,389,000 at March 1, 2014. Transition Networks orders are fulfilled on a relatively short-term basis and therefore the Company does not consider the order book as a significant indicator of longer term future results.

(iii) JDL Technologies, Inc.

JDL Technologies, Inc. (“JDL Technologies” or “JDL”), based in Fort Lauderdale, Florida, is a managed service provider and value-added reseller, supplying information technology (IT) solutions focused on IT service and support management; network design, deployment and integration; cloud and virtualization services; and network operations center management. JDL’s 2014 sales were \$8,567,000 (7% of consolidated sales) compared to 2013 sales of \$33,116,000 (25% of consolidated sales). Project revenue totaled \$6,836,000 in 2014 or 80% of JDL sales compared to \$31,698,000 in 2013 or 96% of JDL sales. Managed services revenues grew to \$1,731,000 in 2014 from \$1,418,000 in 2013.

Competitive Strategy

While the Florida information technology market includes a number of other managed service providers (MSPs) and value-added resellers (VARs), JDL has differentiated itself in several strategic ways during more than 15 years of operations, and is well qualified to help organizations optimize their information technology.

- JDL is committed to helping IT professionals keep their technology up and running, fix problems quickly, support their user communities, and regularly add new value to their organizations. Key avenues for delivering on this commitment—and distinct competitive advantages—are JDL’s secure, on-premise, state-of-the-art redundant datacenter and managed services operations center. JDL Technologies was recently named to the Elite 150 Managed Service Providers in North America, part of The Channel Company’s 2015 MSP 500 list. JDL also holds the MSP Trustmark credential from CompTIA and is a member of the MSP Alliance.
- JDL’s portfolio of technology solutions continues to expand to reflect the constant introduction of new technologies and growing demand among businesses for current solutions to strengthen their competitive edge and continuity. With its team of professionally certified engineers, more than 300 years of technical experience, and talented leadership, JDL Technologies develops best-of-breed IT solutions that effectively meet these demands. JDL was named to the 2014 CRN Solution Provider 500.
- Augmenting its own exceptional bench strength, JDL maintains active partnerships with industry leaders such as Cisco, Citrix, EMC, HP, Sophos and VMware, as well as younger technology innovators like Aerohive, All Medical Solutions, Bradford Networks, Nutanix and RingCentral. These strategic partnerships enable JDL to leverage a comprehensive array of proven technologies to provide solutions that meet each client’s specific needs.

As a result of these combined factors, JDL Technologies has become a trusted advisor to a wide range of clients throughout Florida, earning important incremental business and solid references. In particular, JDL continues to grow its managed services base, successfully attracting enterprise clients with multiple locations in Florida and throughout the U.S. and generating steadily increasing recurring monthly revenues.

Targeted Vertical Markets

Looking beyond its deep roots in the public education sector, in 2012 JDL began to aggressively expand into select other verticals, including the healthcare and general commercial enterprise markets.

Education:

Since JDL Technologies was formed, its largest client has been the School Board of Broward County, Florida (SBBC), the sixth largest public school system in the United States. JDL staffs and manages the SBBC network operations center, which monitors all network elements (servers, switches, routers) and more than 60,000 computers in 265 buildings. In 2014, Broward chose JDL to install wireless networks for its schools, with wireless access points being installed in every classroom as funding becomes available. Currently, more than 5,523 access points are installed and in service,

JDL monitors Florida's public school districts for requests for proposals, and actively bids on all work for which it is qualified. As a result, JDL won bids to perform wireless infrastructure projects for Monroe County and DeSoto County Public Schools in 2014.

Healthcare:

JDL continues to aggressively pursue the \$1.3 billion healthcare market in Florida, using HIPAA compliance training seminars and HIPAA-required security risk assessments to acquire clients and position for additional IT services sales, including managed services. More than 30 security risk assessments were completed in 2014, and the company will hire an additional HIPAA Security Analyst to support sales growth in 2015. Strategically, JDL is beginning to segment its training and solutions for small practices, larger providers including medical centers and regional hospitals, and suppliers (known as Business Associates in HIPAA parlance) who are also bound by HIPAA requirements. The company has a robust managed services practice in the healthcare market, with clients ranging from small single-office practices to multi-location regional specialists to medical insurance providers.

Commercial:

Among commercial enterprises, JDL Technologies continues to build a solid roster of diverse clients that include the following examples, along with incremental revenues from additional projects:

- A 60-year-old Florida financial institution with two dozen branches and more than \$4 billion in assets;
- A global fitness program whose 14 million followers take weekly classes in over 100,000 locations;
- The largest private international bank in South America;
- Several of the largest construction firms in Florida; and
- A well-funded non-profit organization with 19 locations in the continental U.S.

Technology Solutions

As a managed service provider and value-added reseller, JDL Technologies specializes in delivering information technology solutions that enable organizations to focus on the mission-critical activities that drive their success. JDL's IT solutions encompass an extensive range of networking, virtualization, cloud and infrastructure services, many of which are available under ongoing JDL management to conserve client IT resources and generate monthly recurring revenues for JDL. As information technology continues to evolve, JDL is committed to retaining its position on the leading edge by ensuring its engineers are trained and certified in the newest technology solutions.

Managed Services:

JDL Technologies continues to expand its reach as a Managed Service Provider, growing its client base beyond South Florida to achieve a greater nationwide presence in just two years. The company offers a managed service program designed specifically for the healthcare market, and others for the commercial and education markets. Programs offer network management, availability assurance, event alerting and incident management; server, workstation, mobile device and other asset management; software patching and other security services; help desk support for client users; SIP trunking; migration, conversion and vendor management, as well as technical consulting services and training.

Network Services:

The JDL team has extensive experience in assessing, designing and implementing wired and wireless networks, as well as entire IT infrastructures. Networking services also include MPLS, private line and IP, network and endpoint security, network tuning and cabling/wiring services. Public school districts and healthcare offices, in particular, are actively leveraging wireless networks to simplify their communications systems, reduce their technology footprint in confined spaces, and lower maintenance costs. Wireless networking deployments will be increasingly demanded by school systems as the modernized E-Rate program enables funding for managed wireless networks, or wireless as a service, in addition to more traditional wireless projects.

Cloud Solutions:

JDL cloud services range from storage, backup and recovery to hosted PBX, hosted contact center services and hosted email services, all billable as monthly recurring revenue. Many clients are opting to move elements of their infrastructures to the cloud for the benefits of vertical and horizontal scalability, internal bandwidth conservation and other advantages. Cloud services are also attractive for simplifying IT management for staffs with limited or overtaxed IT resources.

Virtualization:

JDL's talented virtualization engineers assess, design, deploy, and manage virtualization programs that ensure client access to any workload, anytime, anywhere, on any device. Virtualization may encompass desktops, servers, applications, storage or any combination, including connectivity and software licensing. Businesses gain the advantages of economies of scale, enhanced security, and disaster recovery protections that are inherent in virtualized environments.

Order Book and Recent Orders

Outstanding customer orders and contracts for JDL products and services were approximately \$3,448,000 at March 1, 2015 and \$1,501,000 at March 1, 2014. The Company does not consider current outstanding orders and contracts as a significant indicator of longer term future results.

On March 9, 2015, the Company announced that JDL Technologies, Inc., had been awarded a new contract by the School Board of Broward County to provide Local Area Network, Wireless Local Area Network and data center upgrades, among other IT services, to the public K-12 schools of Broward County, Florida. The Company estimates that the contract has the potential to generate up to approximately \$83 million of revenue over the next five years. Although JDL Technologies expects to begin providing services under the contract in the second quarter of calendar 2015, JDL Technologies and the School Board of Broward County have not finalized the timing of the services that will be delivered under the contract.

(2) Employment Levels

As of March 1, 2015 the Company employed 578 people. Of this number, 406 were employed by Suttle (including 115 in Hector, Minnesota, 289 in Costa Rica and 2 in the U.K.), 122 by Transition Networks, Inc. (106 in Minnetonka, MN and 16 in the U.K.), 35 by JDL Technologies, Inc., and 15 corporate general and administrative positions.

(3) Executive Officers of Registrant

The executive officers of the Company and their ages at March 1, 2015 are set forth below. See Item 9B of this Form 10-K for additional information on the Company's management.

<u>Name</u>	<u>Age</u>	<u>Position</u> ¹
Roger H.D. Lacey	64	Vice-Chairman of the Board and Chief Executive Officer [2014] ²
Edwin C. Freeman	59	Vice President, Treasurer and Chief Financial Officer [2013] ³
Bruce Blackwood	52	President and General Manager, Suttle, Inc. [2007] ⁴
Scott Otis	53	President and General Manager, Transition Networks, Inc. [2013] ⁵
Scott Fluegge	45	President and General Manager, JDL Technologies, Inc [2011] ⁶
George Wakileh	49	Vice President of Technology Development, Suttle, Inc. [2009] ⁷
Kristin A. Hlavka	33	Corporate Controller [2011] ⁸

-
- 1 Dates in brackets indicate year in which officers began serving in such capacity. Executive officers serve at the pleasure of the Board of Directors.
 - 2 Mr. Lacey has been a director of the Company since 2008, was appointed Vice Chair in September 2013, and was appointed Interim Chief Executive Officer in June 2014. On February 27, 2015 he was appointed as the Company's Chief Executive Officer. Mr. Lacey was Senior Vice President of Strategy and Corporate Development for 3M Corporation from 2009 until his retirement in 2013. In addition, from 2000 until his retirement, he was 3M Corporation's Chief Strategy Officer and head of mergers and acquisitions.
 - 3 Mr. Freeman was appointed Chief Financial Officer in September 2013. From March 1992 to September 2013, he held management positions within operations and finance at Bro-Tex Co., Inc, a private company that distributes non-woven materials, most recently serving as the Vice President and Chief Financial Officer. Prior to his appointment as Chief Financial Officer, he served as a director of CSI since 1988.
 - 4 Mr. Blackwood was appointed Vice President and General Manager of Suttle in December 2007, and was named President and General Manager in September 2013. From July 2001 to November 2007 he served as Suttle's Vice President of Sales. Prior to July 2001 he was Vice President of Sales for Americable.
 - 5 Mr. Otis was appointed President and General Manager of Transition Networks in September 2013. From December 2010 to June 2011 he served as Vice President, Operations - Professional Services for TE Connectivity, Inc. Prior to December 2010, he was the Vice President, Marketing and Business Development – ADC Professional Services.
 - 6 Mr. Fluegge was appointed Vice President and General Manager of JDL Technologies in December 2011, and was named President and General Manager in September 2013. Prior to this, he was the Vice President of Workload Automation at GSS AMERICA / GSS INFOTECH / INFOSPECTRUM CONSULTING.
 - 7 Mr. Wakileh has been Suttle's Global Vice President of Technology and Business Development since 2009. In addition, in June 2014 he was designated as the Company's Corporate Scientist, with responsibility for developing strategy for and leading technology development throughout the Company. Mr. Wakileh has over 20 years' experience in telecommunications technology development and strategy.
 - 8 Ms. Hlavka was appointed Corporate Controller in May 2011. From July 2008 to April 2011, she served as the Assistant Corporate Controller. Prior to July 2008, she was an auditor for Deloitte and Touche, LLP.

(d) FINANCIAL INFORMATION ABOUT FOREIGN AND DOMESTIC OPERATIONS AND EXPORT SALES

Financial information about domestic and foreign operations and export sales may be obtained by reference to Note 11 of the "Notes to Consolidated Financial Statements" under Item 8 herein.

ITEM 1A. RISK FACTORS

Forward Looking Statements

Certain statements contained in this Annual Report on Form 10-K are “forward-looking” statements within the meaning of and in reliance on the Private Securities Litigation Reform Act of 1995, which provides a “safe harbor” for forward-looking statements. Actual events and results may differ materially from those expressed or forecasted in forward-looking statements due to a number of factors. The principal important risk factors that could cause our actual performance and future events and actions to differ materially from these forward-looking statements include, but are not limited to, the risk factors discussed below.

Risks Related to Our Business

The primary markets we serve are highly competitive, and our ability to compete requires continual focus on delivering high-quality, competitively priced products and services and the regular introduction of new products and services that meet evolving customer requirements.

Competition in the markets for voice and data communications products is intense. Our ability to compete with other manufacturers of these products depends primarily on our engineering, manufacturing and marketing skills; the price, quality and reliability of our products; our delivery and service capabilities; and our control of operating expenses. Our JDL subsidiary also experiences intense competition from other providers of IT products and services. We have experienced, and anticipate continuing to experience, pricing pressures from our customers as well as our competitors. The markets we serve are characterized by rapid technological advances and evolving industry standards. These markets can be significantly affected by new product introductions and marketing activities of industry participants. Some of our competitors and potential competitors have greater financial, technological, manufacturing, marketing, and personnel resources than we. Present and future competitors may be able to identify new markets and develop new products that are superior to those developed by us. They may also adapt new technologies faster, devote greater resources to research and development, promote products more aggressively, and price products more competitively than we. We cannot ensure that competition will not intensify or that we will be able to compete effectively in the markets in which we compete.

We face many challenges in maintaining acceptable margins, and our level of gross margin may not be sustainable.

Gross margins among our products and services vary and are subject to fluctuation from quarter to quarter. The factors that may affect our gross margins adversely are numerous and include:

- Changes in customer, geographic, or product mix;
- Our ability to reduce product costs;
- Increases in material or labor costs;
- Expediting costs incurred to meet customer delivery requirements;
- Excess inventory and inventory carrying charges;
- Obsolescence charges;
- Changes in shipment volume;
- Changes in component pricing;
- Increased price competition;
- Changes in distribution channels;
- Lower margins on competitive-bid contracts;
- Increased warranty cost; and
- Our ability to manage the impact of foreign currency exchange rate fluctuations.

Consolidation among our customers has occurred and further consolidation may occur, resulting in the loss of some customers and reducing revenue during the pendency of business combinations and related integration activities.

We believe future consolidation may occur among our customers as they attempt to increase market share and achieve greater economies of scale. Consolidation has affected our business as our customers focus on completing business combinations and integrating their operations. In some instances, customers integrating large-scale acquisitions have reduced their purchases of our products as they integrate.

The business impact to us of significant customer mergers is likely to be unclear until sometime after these transactions are completed. After a consolidation occurs, a customer may choose to reduce the number of vendors from which it purchases equipment and may choose one of our competitors as its preferred vendor. We cannot ensure that we will continue to supply equipment to the surviving communications service provider after a business combination is completed.

Our profitability could be affected negatively if one or more of our key customers substantially reduces orders for our products or transitions their purchases towards lower gross margin products.

A large portion of our revenues is derived from a relatively small number of customers, with our top ten customers accounting for 72%, 83% and 76% of net sales for 2014, 2013 and 2012, respectively. In fiscal 2014, 2013 and 2012, AT&T accounted for approximately 33%, 24% and 17% of our sales, respectively. Another one of our largest customers, Verizon, accounted for 6%, 8% and 8% of our net sales for the years 2014, 2013 and 2012. If we lose a significant customer for any reason, our sales and gross profit will be negatively affected.

Our market is subject to rapid technological change and, to compete effectively, we must continually introduce new products that achieve market acceptance.

The communications equipment industry is characterized by rapid technological changes, evolving industry standards, changing market conditions, short product life cycles and rapidly changing customer requirements and frequent new product and service introductions and enhancements. The introduction of products using new technologies or the adoption of new industry standards can make our existing products, or products under development, obsolete or unmarketable. Our future success will depend on our ability to enhance our existing products, to introduce new products to meet changing customer requirements and emerging technologies, and to demonstrate the performance advantages and cost-effectiveness of our products over competing products. Our failure to modify our products to support new alternative technologies or failure to achieve widespread customer acceptance of these modified products could cause us to lose market share and cause our revenues to decline.

We may not predict technological trends or the success of new products in the communications equipment market accurately. New product development often requires forecasting of market trends, development and implementation of new technologies and processes and substantial capital commitments. We do not know whether other new products we develop will gain market acceptance or result in profitable sales.

Some competitors have greater engineering and product development resources than we have. Although we expect to continue to invest significant resources in product development activities, our efforts to achieve and maintain profitability will require us to be selective and focused with our research and development expenditures. If we fail to anticipate or respond in a cost-effective and timely manner to technological developments, changes in industry standards or customer requirements, or if we experience any significant delays in product development or introduction, our business, operating results and financial condition could be affected adversely.

We may experience delays in developing and marketing product enhancements or new products that respond to technological change, evolving industry standards and changing customer requirements. We cannot ensure that we will not experience difficulties that could delay or prevent the successful development, introduction, and marketing of these products or product enhancements, or that our new products and product enhancements will adequately meet the requirements of the marketplace and achieve any significant or sustainable degree of market acceptance in existing or additional markets. In addition, the future introductions or announcements of products by us or one of our competitors embodying new technologies or changes in industry standards or customer requirements could render our then-existing products obsolete or unmarketable. We cannot ensure that the introduction or announcement of new product offerings by us or one or more of our competitors will not cause customers to defer their purchase of our existing products, which could cause our revenues to decline.

Our business units are dependent upon federal government spending.

Our JDL Technologies and Transition Networks business units are involved in projects that receive much of their funding from the United States federal government. To the extent that federal government spending is delayed or curtailed by government actions, our revenues and operating results may be adversely affected.

We evaluate and frequently pursue acquisitions, but we may not successfully close these acquisitions and, if these acquisitions are completed, we may have difficulty integrating the acquired businesses with our existing operations.

We regularly consider the acquisition of complementary companies and product lines. We cannot, however, ensure that we will be able to find appropriate candidates for acquisitions, reach agreement to acquire them, or obtain requisite shareholder or regulatory approvals needed to close strategic acquisitions, despite the effort and management attention invested.

The impact of future acquisitions on our business, operating results and financial condition is uncertain. In the case of businesses we may acquire in the future, we may have difficulty assimilating these businesses and their products, services, technologies and personnel into our operations. These difficulties could disrupt our ongoing business, distract our management and workforce, increase our expenses and materially adversely affect our operating results and financial condition. Also, we may not be able to retain key management and other critical employees after an acquisition. We may also acquire unanticipated liabilities. In addition to these risks, we may not realize all of the anticipated benefits of these acquisitions.

Our operating results fluctuate from quarter to quarter.

Our operating results are difficult to predict and may fluctuate significantly from quarter to quarter. Fluctuations in our quarterly operating results may be caused by many factors, including the following:

- the volume of customer orders and our ability to fulfill those orders in a timely manner;
- the overall level of capital expenditures by our customers;
- work stoppages and other developments affecting the operations of our customers;
- the timing of and our ability to obtain new customer contracts;
- the timing of revenue recognition;
- the timing of new product and service introductions;
- the availability of products and services;
- market acceptance of new and enhanced versions of our products and services;
- variations in the mix of products and services we sell;
- the timing of federal and state government funding of projects;
- the location and utilization of our production capacity and employees; and
- the availability and cost of key components of our products.

Our expense levels are based in part on expectations of future revenues. If revenue levels in a particular quarter are lower than expected, our operating results will be affected adversely.

We depend on manufacturing relationships and on limited-source suppliers and any disruptions in these relationships may cause damage to our customer relationships.

We procure all parts and certain services involved in the production of our products from, and subcontract much of our product manufacturing to outside firms that specialize in these services. Although most of the components of our products are available from multiple vendors, we have several single-source supplier relationships, either because alternative sources are not available or because the relationship is advantageous to us.

We cannot ensure that our suppliers will be able to meet our future requirements for products and components in a timely fashion. In addition, the availability of many of these components to us is dependent in part on our ability to provide our suppliers with accurate forecasts of our future requirements. Delays or lost sales could be caused by other factors beyond our control, including defects in the quality of components or products supplied by others.

We are dependent upon our senior management and other critical employees.

Like all communications technology companies, our success is dependent on the efforts and abilities of our senior management personnel and other critical employees, including those in sales, marketing and product development functions. Our ability to attract, retain and motivate these employees is critical to our success. In addition, because we may acquire one or more businesses in the future, our success will depend, in part, upon our ability to retain and integrate our own personnel with personnel from acquired entities that are necessary to the continued success or the successful integration of the acquired businesses.

Managing our inventory is complex and may include write-downs of excess or obsolete inventory.

Managing our inventory of components and finished products is complicated by a number of factors, including the need to maintain a significant inventory of finished goods for orders we anticipate but may not be received. These issues may cause us to purchase and maintain significant amounts of inventory. If this inventory is not used as expected based on anticipated requirements, it may become excess or obsolete. The existence of excess or obsolete inventory can result in sales price reductions or inventory write-downs, which could adversely affect our business and results of operations.

We face risks associated with expanding our sales outside of the United States.

We believe that our future growth depends in part upon our ability to increase sales in international markets. These sales are subject to a variety of risks, including fluctuations in currency exchange rates, tariffs, import restrictions and other trade barriers, unexpected changes in regulatory requirements, longer accounts receivable payment cycles and potentially adverse tax consequences, and export license requirements. In addition, we are subject to the risks inherent in conducting business internationally, including political and economic instability and unexpected changes in diplomatic and trade relationships. We cannot ensure that one or more of these factors will not have a material adverse effect on our business strategy and financial condition.

Compliance with internal control requirements is expensive and poses certain risks.

We expect to incur significant continuing costs, including accounting fees and staffing costs, in order to maintain compliance with the internal control requirements of the Sarbanes-Oxley Act of 2002. Expansion of our business, particularly internationally, will necessitate ongoing changes to our internal control systems, processes and information systems. In addition, if we complete acquisitions in the future, our ability to integrate operations of the acquired company could impact our compliance with Section 404 of the Sarbanes-Oxley Act. We cannot be certain that as our business changes, our current design for internal control over financial reporting will be sufficient to enable management to determine that our internal controls are effective for any period, or on an ongoing basis.

In the future, if we fail to complete the annual Section 404 evaluation in a timely manner, we could be subject to regulatory scrutiny and a loss of public confidence in our internal controls. In addition, any failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm our operating results or cause us to fail to meet our reporting obligations.

Product defects or the failure of our products to meet specifications could cause us to lose customers and revenue or to incur unexpected expenses.

If our products do not meet our customers' performance requirements, our customer relationships may suffer. Also, our products may contain defects or fail to meet product specifications. Any failure or poor performance of our products could result in:

- delayed market acceptance of our products;
- delayed product shipments;

- unexpected expenses and diversion of resources to replace defective products or identify and correct the source of errors;
- damage to our reputation and our customer relationships;
- delayed recognition of sales or reduced sales; and
- product liability claims or other claims for damages that may be caused by any product defects or performance failures.

Our sales and operations may continue to be impacted adversely by current global economic conditions.

Over the past several years, financial markets globally have experienced periods of extreme disruption. These have included, among other things, extreme volatility in securities prices, severely diminished liquidity and credit availability, ratings downgrades of some investments and declining valuations of others. The frequency, severity and duration of these disruptions in the financial markets and the global economy are unknown. We cannot ensure that there will not be a further deterioration in financial markets and in business conditions generally. These economic developments have adversely affected our business in a number of ways and will likely continue to adversely affect our business during the foreseeable future.

Risks Related to Our Common Stock

Our stock price has been volatile historically and the price of our common stock may fluctuate significantly in the future.

The trading price of our common stock has been and may continue to be subject to wide fluctuations. Our stock price may fluctuate in response to a number of events and factors, such as quarterly variations in operating results, announcements of technological innovations or new products by us or our competitors, the operating and stock price performance of other companies that investors may deem comparable to us, and new reports relating to trends in our markets or general economic conditions.

In addition, the stock market in general, and prices for companies in our industry in particular, have experienced extreme volatility that often has been unrelated to the operating performance of these companies. These broad market and industry fluctuations may adversely affect the price of our common stock, regardless of our operating performance.

Anti-takeover provisions in our charter documents, our shareholder rights agreement and Minnesota law could prevent or delay a change in control of our company.

Provisions of our articles of incorporation and bylaws, our shareholder rights agreement (also known as a “poison pill”) and Minnesota law may discourage, delay or prevent a merger or acquisition that a shareholder may consider favorable, and could limit the price that investors are willing to pay for our common stock. These provisions include the following:

- advance notice requirements for shareholder proposals;
- authorization for our board of directors to issue preferred stock without shareholder approval;
- authorization for our board of directors to issue preferred stock purchase rights upon a third party’s acquisition of 16.5% or more of our outstanding shares of common stock;
- limitations on business combinations with interested shareholders; and
- a super majority vote by shareholders is required to approve certain corporate actions, including merger transactions.

Some of these provisions may discourage a future acquisition of our company even though our shareholders would receive an attractive value for their shares, or a significant number of our shareholders believe such a proposed transaction would be in their best interest.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES**CSI conducts administrative, manufacturing and engineering functions at the following facilities:**

- In Minnetonka, Minnesota, the Company owns a 105,000 square foot building where its executive and administrative offices are located. In addition, Transition Networks uses this facility for its warehouse, assembly, engineering and administrative operations, JDL Technologies, Inc. uses this facility for some administrative operations, and Suttle uses this facility for its sales, marketing and product development.
- Suttle's manufacturing is conducted at two locations. At Hector, Minnesota, the Company owns three plants totaling 109,000 square feet of manufacturing space. The Company leases 40,000 square feet of manufacturing space in San Jose, Costa Rica.
- Austin Taylor Communications, Ltd. owns a 40,000 square foot facility in Bethesda, Wales, U.K.
- Transition Networks leases 7,000 square feet of office space in the U.K. for its Transition Networks, EMEA operations.

CSI believes these facilities will be adequate to accommodate its administrative, manufacturing and distribution needs for the foreseeable future.

ITEM 3. LEGAL PROCEEDINGS

The Company is subject to claims and lawsuits that have been filed in the ordinary course of business. From time to time, the Company brings suit against others to enforce contract rights or property rights, or to collect debts in the ordinary course of business. Management believes that the resolution or settlement of currently pending litigation will not have a material adverse effect on the results of operations or liquidity of the Company.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASE OF EQUITY SECURITIES****(a) MARKET INFORMATION**

The Company's common stock trades on the NASDAQ under the trading symbol JCS.

The table below presents the price range of high and low trades of the Company's common stock for each quarterly period indicated as reported by NASDAQ for 2014 and 2013.

	2014		2013	
	High	Low	High	Low
First	\$ 13.92	\$ 10.78	\$ 11.25	\$ 9.75
Second	13.50	10.75	10.69	9.55
Third	13.09	10.68	12.35	9.66
Fourth	12.15	10.00	12.25	9.95

(b) HOLDERS

At March 1, 2015 there were approximately 563 registered holders of record of Communications Systems, Inc. common stock.

(c) DIVIDENDS

Communications Systems, Inc. paid regular quarterly dividends to its shareholders on the dates and at the rates indicated below:

<u>Payment Date</u>	<u>Dividend per Share</u>
January 1, 2015	\$.16
October 1, 2014	.16
July 1, 2014	.16
April 1, 2014	.16
January 1, 2014	.16
October 1, 2013	.16
July 1, 2013	.16
April 1, 2013	.16
December 27, 2012	.16

The Company accelerated the payment of the dividend declared in the fourth quarter of 2012 and paid the dividend on December 27, 2012 rather than January 1, 2013. The payment of future dividends will be determined at the discretion of the Board of Directors.

(d) INFORMATION REGARDING EQUITY COMPENSATION PLANS

The following table presents information about the Company's equity compensation plans, under which equity securities of the Company are authorized for issuance, as of December 31, 2014:

Securities Authorized for Issuance Under Equity Compensation Plans

<u>Plan Category (1)</u>	<u>Number of shares of common stock to be issued upon exercise of outstanding options, warrants and rights</u>	<u>Weighted-average exercise price of outstanding options warrants and rights</u>	<u>Number of shares of common stock available for future issuance under equity compensation plans (excluding shares in column (a))</u>
<u>Equity compensation plans approved by security holders:</u>			
1992 Stock Plan-Employee Plan	22,008	\$ 14.15	-
1992 Stock Plan-Nonemployee Director Plan	90,000	\$ 10.56	-
1990 Employee Stock Purchase Plan	4,028	\$ 9.45	21,483
2011 Executive Incentive Compensation Plan	628,861	\$ 11.58	321,928

Equity compensation plans not approved by security holders:

None

(1) The Company does not have individual compensation arrangements involving the grant of options, warrants and rights.

(e) FIVE YEAR PERFORMANCE GRAPH

The following graph presents, at the end of each of the Company's last five fiscal years, the cumulative total return on the common stock of the Company as compared to the cumulative total return reported for the NASDAQ (U.S.), and the NASDAQ Telecommunications Index. Company information and each index assume the investment of \$100 on the last business day before January 1, 2009 and the reinvestment of all dividends.

Comparison of Five-Year Cumulative Total Return

<u>Company or Index</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>
Communications Systems, Inc.	\$ 100.000	\$ 118.455	\$ 123.289	\$ 96.579	\$ 109.726	\$ 109.165
NASDAQ US	100.000	129.261	151.943	152.417	177.459	236.879
NASDAQ TELCOM	100.000	110.924	132.294	139.737	168.433	191.004

(f) RECENT SALES OF UNREGISTERED SECURITIES

Not applicable.

(g) PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

During the three months ended December 31, 2014 the Company repurchased shares of stock as follows:

ISSUER PURCHASES OF EQUITY SECURITIES				
Period	Total Number of Shares (or Units) Purchased ⁽¹⁾	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
October 2014	357	\$ 10.75	-	411,910
November 2014	194	11.89	-	411,910
December 2014	-	-	-	411,910
Total	551	\$ 11.15	-	411,910

(1) The shares in this column represent shares that were surrendered to us by plan participants to satisfy withholding tax obligations related to share-based compensation.

(2) Shares represent remaining amount of a 500,000 share repurchase authorization approved by the Company's Board in October 2008 and publicly announced in November 2008.

ITEM 6. SELECTED FINANCIAL DATA

The following selected financial data has been derived from our consolidated financial statements and should be read in conjunction with the Consolidated Financial Statements and related notes thereto set forth in Item 8 and with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in Item 7 of this Annual Report on Form 10-K.

COMMUNICATIONS SYSTEMS, INC. AND SUBSIDIARIES

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Communications Systems, Inc. provides physical connectivity infrastructure products and services for global deployments of broadband networks through the following business units:

Suttle

Founded in 1910, today Suttle is a leader in innovative network solutions that meet service providers' needs from the central office all the way to the premise through OSP and premise distribution offerings for voice, data and video. Suttle's product portfolio incorporates the best available technology, leveraging existing infrastructure, and laying the foundation for future growth. Products are designed to comply with the most stringent industry standards. Quality management systems are ISO 9001 and TL9000 certified.

Suttle's best known brands include SOHO Access[™]—a full line of wiring components—and the new FutureLink[™] brand of high-speed and tool-less solutions that lower the service providers' cost of ownership. The newest MediaMAX[™] brand provides optimized wired and wireless gigabit connectivity for home and small office structured distribution.

Transition Networks

With over 25 years of growth and expertise in hardware and software development, Transition Networks offers customers the ability to affordably integrate the benefits of fiber optics into any data network, in any application, and in any environment. Offering support for multiple protocols, any interface, and a multitude of hardware platforms, Transition Networks' portfolio gives customers the power to deliver and manage network traffic reliably over fiber. Based in Minneapolis, Minnesota, Transition Networks distributes hardware-based connectivity solutions exclusively through a network of resellers in over 90 countries.

JDL Technologies

JDL Technologies provides outsourced IT services and infrastructure to the education, healthcare, government and enterprise market segments. JDL's portfolio of technology solutions includes virtualization, managed services, wired and wireless network design and implementation services, and converged infrastructure configuration and deployment. JDL's largest customer has traditionally been the School Board of Broward County, Florida (SBBC). JDL runs SBBC's Network Operation Center that monitors all network elements (servers, switches, routers) and over 60,000 computers in 265 buildings for the nation's 6th largest school district.

Key 2014 Developments

- The Company's 2014 sales were \$119.1 million, a 9% decrease compared to 2013 sales of \$131.3 million.
- The Company's 2014 net income was \$2.0 million, or \$0.23 per diluted share, compared to a net loss of \$958,000 or (\$0.11) per diluted share in fiscal 2013. In 2013, the Company had a \$5.8 million goodwill write-off.
- At 2014 year end, the Company had cash, cash equivalents and investments of \$29.9 million and positive working capital of \$56.9 million.
- Suttle sales increased 24% to \$67.3 million in 2014 compared to \$54.3 million in 2013, driven in part by an \$11.6 million increase in sales of FTTx products. Suttle's operating income increased 78% to \$6.6 million in 2014 from \$3.7 million in 2013.
- Transition Networks sales decreased 2% to \$43.2 million in 2014 compared to \$43.9 million in 2013.
- Sales by JDL Technologies decreased 74% to \$8.6 million in 2014 compared to \$33.1 million in 2013. JDL's 2013 results included almost \$23 million in revenues from a large infrastructure project that generated only \$119,000 in revenues in 2014.

Forward Looking Statements

In this report and from time to time, in reports filed with the Securities and Exchange Commission, in press releases, and in other communications to shareholders or the investing public, we may make “forward looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. We may make these forward looking statements concerning possible or anticipated future financial performance, business activities, plans, pending claims, investigations or litigation, which are typically preceded by the words “believes,” “expects,” “anticipates,” “intends” or similar expressions. For these forward-looking statements, the Company claims the protection of the safe harbor for forward-looking statements contained in federal securities laws. Shareholders and the investing public should understand that these forward looking statements are subject to risks and uncertainties that could cause actual performance, activities, anticipated results, outcomes or plans to differ significantly from those indicated in the forward-looking statements. For a detailed discussion of a number of such risk factors, please see Item 1A above.

Critical Accounting Policies

Inventory Valuation: We value inventories at the lower of cost or market. Reserves for overstock and obsolescence are estimated and recorded to reduce the carrying value to estimated net realizable value. The amount of the reserve is determined based on historical usage, projected sales information, plans for discontinued products and other factors. Though management considers these reserves adequate and proper, changes in sales volumes due to unexpected economic or competitive conditions are among the factors that could materially affect the adequacy of this reserve.

Income Taxes: In the preparation of the Company’s consolidated financial statements, management calculates income taxes. This includes estimating the Company’s current tax liability as well as assessing temporary differences resulting from different treatment of items for tax and book accounting purposes. These differences result in deferred tax assets and liabilities, which are recorded on the balance sheet. These assets and liabilities are analyzed regularly and management assesses the likelihood it will realize these deferred assets from future taxable income. We determine the valuation allowance for deferred income tax benefits based upon the expectation of whether the benefits are more likely than not to be realized. The Company records interest and penalties related to income taxes as income tax expense in the Consolidated Statements of Income.

Revenue Recognition: The Company recognizes revenue when the earnings process is complete, evidenced by persuasive evidence of an agreement, delivery has occurred or services have been rendered, the price is fixed or determinable, and collectability is reasonably assured. In the Suttle and Transition Networks segments, the earning process completion is evidenced through the shipment of goods, based on the sales terms of these segments, the risk of loss is transferred upon shipment or delivery to customers and there are no significant obligations subsequent to that point. There are not significant estimates related to revenue recognition for these segments.

JDL Technologies records revenue on hardware, software and related equipment sales and installation contracts when the revenue recognition criteria are met and the products are installed and accepted by the customer. JDL records revenue on service contracts on a straight-line basis over the contract period, unless evidence suggests that the revenue is earned in a different pattern. Each contract is individually reviewed to determine when the earnings process is complete.

Results of Operations

2014 Compared to 2013

Sales were \$119,071,000 in 2014, a 9% decrease from sales of \$131,320,000 in 2013. Operating income increased 185% to \$3,293,000 in 2014 as compared to \$1,156,000 in 2013. Income before income taxes increased 188% to \$3,181,000 from \$1,103,000 in 2013. Net income increased 305% to \$1,962,000 in 2014 compared to a net loss of \$958,000 in 2013.

Suttle Results

Suttle sales increased 24% to \$67,330,000 in 2014 compared to \$54,346,000 in 2013. Sales by product groups in 2014 and 2013 were:

	Suttle Sales by Product Group	
	2014	2013
Modular connecting products	\$ 13,015,000	\$ 14,077,000
DSL products	6,052,000	8,057,000
Structured cabling products	31,916,000	26,900,000
FTTx products	16,073,000	4,444,000
Other products	274,000	868,000
	<u>\$ 67,330,000</u>	<u>\$ 54,346,000</u>

Suttle's sales by customer groups in 2014 and 2013 were:

	Suttle Sales by Customer Group	
	2014	2013
Telecommunication customers	\$ 56,681,000	\$ 43,296,000
Distributors	5,882,000	5,938,000
International	4,530,000	4,547,000
Other	237,000	565,000
	<u>\$ 67,330,000</u>	<u>\$ 54,346,000</u>

The increase in sales is due primarily to increased sales to Suttle's domestic telecommunication customers. Sales to the telephone companies increased 31% to \$56,681,000 in 2014 compared to \$43,296,000 in 2013 due to growth in high-speed copper connectivity products and success in securing new business in multiple FTTx domains. Sales to these customers accounted for 84% of Suttle's sales in 2014 compared to 80% of sales in 2013. Sales to distributors decreased 1% and accounted for 9% of sales in 2014 compared to 11% in 2013. International sales accounted for 7% of Suttle's 2014 sales and remained stable compared to 2013.

Sales of structured cabling products increased 19% due to increased spending by telecommunication customers. Sales of FTTx products increased 262% due to securing new business in multiple FTTx domains. Modular connecting products sales decreased 8% due to shifts in technology. Sales of DSL products decreased 25% due to the maturation of the market and increased pricing pressures.

Suttle's gross margin increased 33% to \$20,992,000 in 2014 compared to \$15,812,000 in 2013. The gross margin percentage increased to 31% in 2014 as compared to 29% in 2013 due to introduction of new FTTx products, focused value engineering and cost optimization efforts, and economies of scale.

Selling, general and administrative expenses increased \$2,520,000, or 21% to \$14,389,000, or 21.4% of sales, in 2014 compared to \$11,869,000 in 2013, or 21.8% of sales, due to investment and recruitment of expertise in sales, operations, technology, product management, and engineering as well as increased expenses associated with the implementation of a new ERP system.

Suttle's operating income increased 78% to \$6,603,000 in 2014 from \$3,716,000 in 2013.

Transition Networks

Transition Networks develops, markets, and sells active networking hardware devices. Characteristics of the business include a rapid pace of change in technologies and alternative solutions to our products. Transition Networks derives the majority of its revenues from one-time network upgrade projects. The core markets for these products are enterprise, service providers, government, and industrial users. Roughly 73% of Transition Networks revenue comes from North America, but we continue to see opportunity for long-term growth outside of North America and we will invest resources in sales, marketing, and infrastructure to grow that business.

Transition Networks sales decreased 2% to \$43,174,000 in 2014 compared to \$43,857,000 in 2013. Transition Networks organizes its sales force by vertical markets and segments its customers geographically. Sales by customer groups in 2014 and 2013 were:

	Transition Networks Sales by Region	
	2014	2013
North America	\$ 31,529,000	\$ 30,661,000
EMEA	4,291,000	5,145,000
Rest of world	7,354,000	8,051,000
	<u>\$ 43,174,000</u>	<u>\$ 43,857,000</u>

The following table summarizes Transition Networks' 2014 and 2013 sales by product group:

	Transition Networks Sales by Product Group	
	2014	2013
Media converters	\$ 28,362,000	\$ 28,979,000
Ethernet switches	4,727,000	4,394,000
Ethernet adapters	3,939,000	4,165,000
Other products	6,146,000	6,319,000
	<u>\$ 43,174,000</u>	<u>\$ 43,857,000</u>

Sales in North America increased 3% or \$868,000 compared to 2013 due to increased sales into the Federal government channel. International sales decreased \$1,551,000, or 12%, due mainly to continued sluggish economic activity in Europe.

Gross margin decreased 14% to \$19,199,000 in 2014 compared to \$22,419,000 in 2013. Gross margin as a percentage of sales decreased to 44% in 2014 compared to 51% in 2013 due to unfavorable product mix and competitive prices.

Selling, general and administrative expenses decreased 1% to \$21,393,000, or 49.6% of sales, in 2014 from \$21,581,000 in 2013, or 49.2% of sales. Operating loss decreased 51% to \$2,432,000 in 2014 compared to an operating loss of \$5,012,000 in 2013 due to the write off of goodwill totaling \$5,850,000 in the third quarter of 2013.

Transition Networks continues to develop products based on market needs as well as by following industry standards set by such organizations as the Institute of Electrical and Electronics Engineers (IEEE) and the Metro Ethernet Forum (MEF). It also continues to invest in sales and marketing to grow revenues in our target markets and expand sales outside of North America.

JDL Technologies, Inc.

Sales by JDL Technologies, Inc. decreased 74% to \$8,567,000 in 2014 compared to \$33,116,000 in 2013. The following table summarizes JDL's revenues by customer group in 2014 and 2013:

	JDL Revenue by Customer Group	
	2014	2013
Broward County FL schools	\$ 6,504,000	\$ 7,928,000
Miami Dade County FL schools	119,000	22,988,000
All other	1,944,000	2,200,000
	<u>\$ 8,567,000</u>	<u>\$ 33,116,000</u>

Revenues earned in Broward County FL decreased \$1,424,000 or 18% in 2014 due to the Federal government's decision to withhold all priority two E-Rate funding for the current fiscal year, which required the district to find alternate funding sources for planned projects. Revenues earned in Miami Dade County in 2013 and 2014 were derived from a large E-Rate funded infrastructure project. This was completed in the first quarter of 2014. Revenue from JDL Technologies' sales to small and medium sized commercial businesses (SMBs) decreased by 12% or

\$256,000 as there were fewer large infrastructure transactions completed during the year due to a combination of market trends and JDL's ongoing emphasis on higher margin managed services growth.

JDL gross margin decreased 70% to \$1,968,000 in 2014 compared to \$6,668,000 in 2013. Gross margin as a percentage of sales increased to 23% in 2014 from 20% in 2013 reflecting the fact that a significant portion of its 2013 revenue was hardware-based, rather than its more traditional value-added service.

Selling, general and administrative expenses decreased 14% in 2014 to \$2,846,000, or 33.2% of sales, compared to \$3,292,000 in 2013, or 9.9% of sales, due to a decrease in internal costs associated with the higher revenue achieved in the previous year's E-Rate driven business. Selling, general and administrative expenses as a percentage of sales were much higher in the 2014 period as JDL's non-variable general and administrative expenses constituted a much higher percentage of the lower 2014 sales. JDL reported an operating loss of \$878,000 in 2014 compared to operating income of \$3,376,000 in 2013.

Because federal and local funding for investments in IT infrastructure and services for K-12 public schools varies substantially from year to year, JDL Technologies has experienced notable swings in quarterly and annual revenues. This revenue volatility is expected to continue in future years. On a positive note, the modernized E-Rate program announced for 2015 and beyond extends funding to managed IT services, including wireless as a service, which JDL Technologies is well-positioned to leverage. JDL Technologies anticipates that 2015 E-Rate funding will be available toward the end of 2015, although, based on previous funding experience, JDL may not earn any related revenue until early 2016.

On March 9, 2015, the Company announced that its JDL subsidiary has been awarded a network services contract for the public K-12 schools of Broward County Florida. JDL will be paid for its services from several sources, including proceeds from Broward County bond issuance that was approved in November 2014 and payments from the federal government under the E-Rate program. Although JDL Technologies expects to begin providing services under the contract in the second quarter of calendar 2015, JDL Technologies and the School Board of Broward County have not finalized the timing of the services that will be delivered under the contract.

To reduce dependence on government funding and its characteristic volatility, JDL Technologies continues to aggressively pursue opportunities to provide managed services, migration to the cloud, virtualization, HIPAA-compliant IT services, and other network and infrastructure services to SMBs with a focus on the healthcare, legal and financial services, and logistics markets. As part of this initiative, JDL Technologies has adopted HIPAA standards that enable JDL to serve healthcare providers as a HIPAA-compliant Business Associate, which constitutes an important competitive advantage.

Other

Income before income taxes increased 188% to \$3,181,000 in 2014 compared to \$1,103,000 in 2013. The Company's effective income tax rate was 38% in 2014 compared to 187% in 2013. The 2014 effective rate was higher than the standard rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, and the effect of operations conducted in lower foreign tax rate jurisdictions, as explained in Note 10 to the consolidated financial statements. The 2013 effective rate was higher than the standard rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, the effect of operations conducted in lower foreign tax rate jurisdictions, and the goodwill impairment not deductible for income tax purposes.

2013 Compared to 2012

Sales were \$131,320,000 in 2013, a 26% increase from sales of \$104,250,000 in 2012. Operating income decreased 66% to \$1,156,000 in 2013 as compared to \$3,396,000 in 2012. Income before income taxes decreased 68% to \$1,103,000 from \$3,398,000 in 2012. Net income decreased 143% to a net loss of \$958,000 in 2013 compared to income of \$2,238,000 in 2012.

Suttle

Suttle sales increased 21% to \$54,346,000 in 2013 compared to \$45,030,000 in 2012. Sales by product groups in 2013 and 2012 were:

	Suttle Sales by Product Group	
	2013	2012
Modular connecting products	\$ 14,077,000	\$ 13,428,000
DSL products	8,057,000	8,254,000
Structured cabling products	26,900,000	18,081,000
FTTx products	4,444,000	
Other products	868,000	5,267,000
	<u>\$ 54,346,000</u>	<u>\$ 45,030,000</u>

Suttle's sales by customer groups in 2013 and 2012 were:

	Suttle Sales by Customer Group	
	2013	2012
Telecommunication customers	\$ 43,296,000	\$ 33,645,000
Distributors	5,938,000	5,540,000
International	4,547,000	5,394,000
Other	565,000	451,000
	<u>\$ 54,346,000</u>	<u>\$ 45,030,000</u>

The increase in sales is due primarily to increased sales to Suttle's domestic telecommunication customers. Sales to these customers increased 29% to \$43,296,000 in 2013 compared to \$33,645,000 in 2012 due to fulfillment of new contracts for recently introduced Suttle products and increased sales tied to enhanced network deployments by telecommunication service providers. Sales to these customers accounted for 80% of Suttle's sales in 2013 compared to 75% of sales in 2012. Sales to distributors increased 7% and accounted for 11% of sales in 2013 compared to 12% in 2012. The increase in this customer group is a result of increased opportunities in the domestic market for new single family unit (SFU) and multi-dwelling unit (MDU) construction. International sales accounted for 8% of Suttle's 2013 sales, but declined 16% compared to 2012. The decrease in sales in this customer group is due to a reduction in revenue from Austin Taylor's legacy products, including the termination of a non-profitable OEM contract.

Modular connecting products sales increased 5% due to an increase in new MDU construction in the U.S. housing market and an increase in sales tied to enhanced network deployments. Sales of structured cabling products increased 49% due to increased MDU construction activity in the U.S housing market and an increase in sales tied to enhanced network deployments. Sales of DSL products decreased 2% due to the maturation of the market and increased pricing pressures.

Suttle's gross margin increased 32% to \$15,812,000 in 2013 compared to \$11,974,000 in 2012. The gross margin percentage increased to 29% in 2013 compared to 27% in 2012 due to product mix changes and increased production levels.

Selling, general and administrative expenses increased \$964,000, or 9% to \$11,869,000 in 2013 compared to \$10,905,000 in 2012 due to continued investment into new product development and market expansion initiatives.

Suttle's operating income increased 248% to \$3,716,000 in 2013 from \$1,068,000 in 2012.

Transition Networks

Transition Networks sales decreased 19% to \$43,857,000 in 2013 compared to \$53,843,000 in 2012. Transition Networks organizes its sales force by vertical markets and segments its customers geographically. Sales by customer groups in 2013 and 2012 were:

	Transition Networks Sales by Region	
	2013	2012
North America	\$ 30,661,000	\$ 39,386,000
EMEA	5,145,000	5,744,000
Rest of world	8,051,000	8,713,000
	<u>\$ 43,857,000</u>	<u>\$ 53,843,000</u>

The following table summarizes Transition Networks' 2013 and 2012 sales by product group:

	Transition Networks Sales by Product Group	
	2013	2012
Media converters	\$ 28,979,000	\$ 35,817,000
Ethernet switches	4,394,000	4,738,000
Ethernet adapters	4,165,000	4,948,000
Other products	6,319,000	8,340,000
	<u>\$ 43,857,000</u>	<u>\$ 53,843,000</u>

Sales in North America decreased 22% in 2013, or \$8,725,000 compared to 2012 due to declines in Federal government spending and delays in certain programs. International sales decreased \$1,261,000, or 9%, due to currency fluctuations, project timing and continuing economic problems in certain countries.

Gross margin decreased 20% to \$22,419,000 in 2013 compared to \$27,995,000 in 2012. Gross margin as a percentage of sales decreased to 51% in 2013 compared to 52% in 2012 due to unfavorable product mix.

Selling, general and administrative expenses decreased 12% to \$21,581,000 in 2013 from \$24,645,000 in 2012 due to corporate restructuring and cost reduction measures taken throughout the year. Due to the goodwill write-off totaling \$5,850,000 in the third quarter of 2013, operating income decreased 250% to an operating loss of \$5,012,000 in 2013 compared to operating income of \$3,350,000 in 2012.

JDL Technologies, Inc.

Sales by JDL Technologies, Inc. (the Company's IT services business unit) increased 516% to \$33,116,000 in 2013 compared to \$5,377,000 in 2012. The following table summarizes JDL's revenues by customer group in 2013 and 2012:

	JDL Revenue by Customer Group	
	2013	2012
Broward County FL schools	\$ 7,928,000	\$ 3,265,000
Miami Dade County FL schools	22,988,000	825,000
All other	2,200,000	1,287,000
	<u>\$ 33,116,000</u>	<u>\$ 5,377,000</u>

Revenues earned in Broward County FL increased \$4,663,000 or 143% in 2013 due to the E-Rate 15 initiative, which was significantly larger than the prior year's initiative. Revenues earned in Miami Dade County are related to the district's "Bringing Wireless to the Classroom" initiative for which the district was granted federal funding under the E-Rate program to expand wireless connectivity for students and staff. All other revenues increased \$913,000 due to JDL's concentrated effort to grow its revenues from small to medium sized businesses.

JDL gross margin increased 336% to \$6,668,000 in 2013 compared to \$1,529,000 in 2012. Gross margin as a percentage of sales decreased to 20% in 2013 from 28% in 2012 reflecting the fact that a significant portion of its 2013 revenue was hardware-based, rather than JDL's more traditional value-added service.

Selling, general and administrative expenses increased 29% in 2013 to \$3,292,000 compared to \$2,550,000 in 2012 due to the year over year growth of the sales and administration teams required to manage JDL's continued expansion in both education and commercial markets. JDL reported operating income of \$3,376,000 in 2013 compared to an operating loss of \$1,022,000 in 2012.

Other

Income before income taxes decreased 68% to \$1,103,000 in 2013 compared to \$3,398,000 in 2012. The Company's effective income tax rate was 187% in 2013 compared to 34% in 2012. The 2013 effective rate was significantly higher than the standard rate of 35% primarily because the Company incurred a \$5.8 million goodwill impairment charge in 2013, the majority of which was not deductible for income tax purposes. Other factors affecting the effective income tax rate include state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, and the effect of operations conducted in lower foreign tax rate jurisdictions. The 2012 effective rate was lower than the standard rate of 35% due to state income taxes, the release of valuation allowance placed on foreign net operating losses, and the effect of operations conducted in lower foreign tax rate jurisdictions.

Acquisitions and Dispositions

The Company is a growth-oriented manufacturer of telecommunications connecting and networking devices. The Company continually searches for acquisition candidates with products that will enable the Company to better serve its target markets.

Effects of Inflation

Inflation has not had a significant effect on operations in recent years. The Company does not have long-term production or procurement contracts and has historically been able to adjust pricing and purchasing decisions to respond to inflationary pressures.

Liquidity and Capital Resources

As of December 31, 2014, the Company had approximately \$29,880,000 in cash, cash equivalents and investments. Of this amount, \$1,073,000 was invested in short-term money market funds that are not considered to be bank deposits and are not insured or guaranteed by the FDIC or other government agency. These money market funds seek to preserve the value of the investment at \$1.00 per share; however, it is possible to lose money investing in these funds. The remainder in cash and cash equivalents is operating cash and certificates of deposit, which are fully insured through the FDIC. The Company also had \$16,143,000 in investments consisting of certificates of deposit and corporate notes and bonds that are traded on the open market and are classified as available-for-sale at December 31, 2014.

The Company had working capital of \$56,911,000, consisting of current assets of approximately \$69,906,000 and current liabilities of \$12,995,000 at December 31, 2014 compared to working capital of \$70,599,000, consisting of current assets of \$83,672,000 and current liabilities of \$13,073,000 at the end of 2013. The Company's working capital at December 31, 2014 decreased from the prior year-end as the Company increased its ownership of long-term investments to \$11,540,000 from \$3,921,000.

Cash flow provided by operating activities was approximately \$12,172,000 in 2014 compared to \$773,000 provided by operations in 2013. Significant working capital changes from 2013 to 2014 included a decrease in receivables of \$9,057,000 due to the collection of outstanding receivables by JDL Technologies related to the Miami Dade project primarily completed in 2013 and an increase in Suttle-related inventory and related accounts payable.

Cash provided by investing activities was \$12,048,000 of cash in 2014 compared to cash used of \$5,775,000 in 2013. The Company continued to make capital investments and purchases of certificates of deposit and other marketable securities, moving more of its capital into longer term investments.

Net cash used by financing activities was \$6,301,000 in 2014 compared to \$4,390,000 in 2013. The Company made \$566,000 in contingent consideration payments related to the Patapsco acquisition in 2011. There are no future contingent consideration payments related to this acquisition. Cash dividends paid on common stock increased to \$5,572,000 in 2014 (\$0.64 per common share) from \$4,099,000 in 2013 (\$0.48 per common share) due to an accelerated payment of the dividend declared and paid in December 2012. Proceeds from common stock issuances, principally shares sold to the Company's Employee Stock Ownership Plan and under the Company's Employee

Stock Purchase Plan, totaled approximately \$246,000 in 2014 and \$311,000 in 2013, net of acquisitions of Company stock from employees in order to satisfy withholding tax obligations related to share-based compensation, pursuant to terms of Board and shareholder-approved compensation plans. The Company did not repurchase any shares in 2014 or 2013 under the Board authorized program. At December 31, 2014, Board of Director authority to purchase approximately 411,910 additional shares remained in effect.

As part of the acquisition of the new Minnetonka headquarters building in July 2007, the Company assumed an outstanding mortgage of \$4,380,000. The mortgage is payable in monthly installments and carries an interest rate of 6.83%. The mortgage matures on March 1, 2016. Mortgage payments on principal totaled \$490,000 during 2014. The outstanding balance on the mortgage was \$628,000 at December 31, 2014.

The Company expects that the effective income tax rate for fiscal 2015 will be approximately 33%.

The Company had no outstanding obligations under its line of credit at December 31, 2014 and 2013, and the Company's entire credit line (\$10,000,000 at March 1, 2015) is available for use. Interest on borrowings on the credit line is at LIBOR plus 1.1% (1.4% at December 31, 2014). There were no borrowings on the line of credit during 2014 or 2013. The credit agreement expires October 31, 2016 and is secured by assets of the Company. In the opinion of management, based on the Company's current financial and operating position and projected future expenditures, sufficient funds are available to meet the Company's anticipated operating and capital expenditure needs.

Contractual Obligation Summary

The following table summarizes our contractual obligations at December 31, 2014 and the effect these obligations are expected to have on our liquidity and cash flow in future periods:

	Less than One Year	1 – 3 Years	3 – 5 Years	More Than 5 Years
Long-term debt	\$ 524,000	\$ 104,000	\$ -	\$ -
Interest on long-term debt	27,000	1,000	-	-
Pensions	268,000	262,000	284,000	801,000
Operating leases	290,000	86,000	-	-
Total	<u>\$ 1,109,000</u>	<u>\$ 453,000</u>	<u>\$ 284,000</u>	<u>\$ 801,000</u>

As of December 31, 2014, the Company had no other material commitments (either cancelable or non-cancelable) for capital expenditures, short or long term debt, capital leases or other purchase commitments related to ongoing operations.

New Accounting Pronouncements

See Note 1 of the "Notes to the Consolidated Financial Statements" under Item 8 herein for a discussion of new accounting standards.

Off Balance Sheet Arrangements

None.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company has no freestanding or embedded derivatives. The Company's policy is to not use freestanding derivatives and to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The vast majority of our transactions are denominated in U.S. dollars; as such, fluctuations in foreign currency exchange rates have historically not been material to the Company. At December 31, 2014 our bank line of credit carried a LIBOR rate plus 1.1%. The Company's investments are money market, certificates of deposit, commercial paper, and corporate notes and bonds types of investments that earn interest at prevailing market rates and as such do not have material risk exposure.

Based on the Company's operations, in the opinion of management, the Company is not exposed to material future losses due to market risk.

The Company uses the U.S. dollar as its functional currency in Costa Rica and China. Accordingly, the Company believes its risk of material loss due to fluctuations in foreign currency markets to be small.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

(a) FINANCIAL STATEMENTS

REPORT OF MANAGEMENT

The management of Communications Systems, Inc. and its subsidiary companies is responsible for the integrity and objectivity of the financial statements and other financial information contained in the annual report. The financial statements and related information were prepared in accordance with accounting principles generally accepted in the United States of America and include amounts that are based on management's informed judgments and estimates.

In fulfilling its responsibilities for the integrity of financial information, management maintains accounting systems and related controls. These controls provide reasonable assurance, at appropriate costs, that assets are safeguarded against losses and that financial records are reliable for use in preparing financial statements. Management recognizes its responsibility for conducting the Company's affairs according to the highest standards of personal and corporate conduct.

The Audit Committee of the Board of Directors, comprised solely of outside directors, meets with the independent auditors and management periodically to review accounting, auditing, financial reporting and internal control matters. The independent auditors have free access to this committee, without management present, to discuss the results of their audit work and their opinion on the adequacy of internal financial controls and the quality of financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Communications Systems, Inc.:

We have audited the accompanying consolidated balance sheets of Communications Systems, Inc., and subsidiaries (the “Company”) as of December 31, 2014 and 2013, and the related consolidated statements of income (loss) and comprehensive income (loss), changes in stockholders’ equity, and cash flows for each of the three years in the period ended December 31, 2014. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Communications Systems, Inc. and subsidiaries at December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control-Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 12, 2015 expressed an unqualified opinion on the Company’s internal control over financial reporting.

March 12, 2015

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Communications Systems, Inc.:

We have audited the internal control over financial reporting of Communications Systems, Inc., and subsidiaries (the “Company”) as of December 31, 2014, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2014, of the Company, and our report dated March 12, 2015, expressed an unqualified opinion on those financial statements and financial statement schedule.

Interest paid	73,860	106,101	138,477
Dividends declared not paid	1,446,498	1,436,318	-
Capital expenditures in accounts payable	188,564	-	-

The accompanying notes are an integral part of the consolidated financial statements.

COMMUNICATIONS SYSTEMS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Years Ended December 31, 2014, 2013 and 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of business: Communications Systems, Inc. (herein collectively called “CSI,” “our” or the “Company”) is a Minnesota corporation organized in 1969 that operates directly and through its subsidiaries located in the United States, Costa Rica, and the United Kingdom. CSI is principally engaged through its Suttle business unit in the manufacture and sale of modular connecting and wiring devices for voice and data communications, digital subscriber line filters, and structured wiring systems and through its Transition Networks business unit in the manufacture of media and rate conversion products for telecommunications networks. CSI also provides through its JDL Technologies business unit IT solutions including network design, computer infrastructure installations, IT service management, change management, network security and network operations services.

The Company classifies its businesses into three segments: *Suttle*, which manufactures U.S. standard modular connecting and wiring devices for voice and data communications; *Transition Networks*, which designs and markets media conversion products, ethernet switches, and other connectivity and data transmission products; and *JDL Technologies*, (*JDL*), which provides IT services. Effective January 1, 2014, the Company realigned the financial reporting for its business units. As a result of this realignment, all corporate general and administrative expenses that were previously categorized as “Other” are now included within the three business units as fully allocated costs. There are no material intersegment revenues.

Principles of consolidation: The consolidated financial statements include the accounts of the Company and its subsidiaries. All material intercompany transactions and accounts have been eliminated.

Use of estimates: The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company uses estimates based on the best information available in recording transactions and balances resulting from operations. Actual results could differ from those estimates. The Company’s estimates consist principally of reserves for doubtful accounts, sales returns, warranty costs, asset impairment evaluations, accruals for compensation plans, self-insured medical and dental accruals, pension liabilities, lower of cost or market inventory adjustments, provisions for income taxes and deferred taxes and depreciable lives of fixed assets.

Cash equivalents: For purposes of the consolidated statements of cash flows, the Company considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents. As of December 31, 2014, the Company had \$13,737,000 in cash and cash equivalents. Of this amount, \$1,073,000 was invested in short-term money market funds that are not considered to be bank deposits and are not insured or guaranteed by the federal deposit insurance company (FDIC) or other government agency. These money market funds seek to preserve the value of the investment at \$1.00 per share; however, it is possible to lose money investing in these funds. The remainder is operating cash and certificates of deposit which are fully insured through the FDIC.

Investments: Investments consist of certificates of deposit, commercial paper, and corporate notes and bonds that are traded on the open market and are classified as available-for-sale at December 31, 2014. Available-for-sale investments are reported at fair value with unrealized gains and losses excluded from operations and reported as a separate component of stockholders’ equity, net of tax (see Accumulated other comprehensive loss below).

Inventories: Inventories are stated at the lower of cost or market. Cost is determined by the first-in, first-out method. Provision to reduce inventories to the lower of cost or market is made based on a review of excess and obsolete inventories, estimates of future sales, examination of historical consumption rates and the related value of component parts.

Property, plant and equipment: Property, plant and equipment are recorded at cost. Depreciation is computed using the straight-line method. Depreciation included in cost of sales and selling, general and administrative expenses for continuing operations was \$2,375,000, \$2,030,000 and \$2,058,000 for 2014, 2013 and 2012, respectively. Maintenance and repairs are charged to operations and additions or improvements are capitalized.

Items of property sold, retired or otherwise disposed of are removed from the asset and accumulated depreciation accounts and any gains or losses on disposal are reflected in operations.

Intangible Assets: Intangible assets with indefinite useful lives are not amortized, but are tested at least annually for impairment.

Recoverability of long-lived assets: The Company reviews its long-lived assets periodically when impairment indicators exist as required under generally accepted accounting principles. Potential impairment is determined by comparing the carrying value of the assets with expected net cash flows expected to be provided by operating activities of the business or related products. If the sum of the expected future net cash flows is less than the carrying value, an impairment loss would be measured by comparing the amount by which the carrying value exceeds the fair value of the asset.

Warranty: The Company reserves for the estimated cost of product warranties at the time revenue is recognized. We estimate the costs of our warranty obligations based on our warranty policy or applicable contractual warranty, historical experience of known product failure rates, and use of materials and service delivery costs incurred in correcting product failures. Management reviews the estimated warranty liability on a quarterly basis to determine its adequacy.

The following table presents the changes in the Company's warranty liability for the years ended December 31, 2014 and 2013, which relate to normal product warranties and a five-year obligation to provide for potential future liabilities for certain network equipment sales:

	<u>Year Ended December 31</u>	
	<u>2014</u>	<u>2013</u>
Beginning balance	\$ 564,000	\$ 590,000
Amounts charged to expense	(14,000)	237,000
Actual warranty costs paid	(116,000)	(263,000)
Ending balance	<u>\$ 434,000</u>	<u>\$ 564,000</u>

Accumulated other comprehensive loss: The components of accumulated other comprehensive loss are as follows:

	<u>December 31</u>	
	<u>2014</u>	<u>2013</u>
Minimum pension liability	\$ 1,951,000	\$ 1,796,000
Unrealized (loss) gain on available-for-sale investments	(41,000)	2,000
Foreign currency translation	(2,605,000)	(2,038,000)
	<u>\$ (695,000)</u>	<u>\$ (240,000)</u>

The functional currency of Austin Taylor and Patapsco is the British pound. Assets and liabilities denominated in this foreign currency were translated into U.S. dollars at year-end exchange rates. Revenue and expense transactions were translated using average exchange rates. Suttle Costa Rica and Transition China use the U.S. dollar as their functional currency.

Revenue recognition: The Company's manufacturing operations (Suttle and Transition Networks) recognize revenue when the earnings process is complete, evidenced by persuasive evidence of an agreement, delivery has occurred or services have been rendered, the price is fixed or determinable, and collectability is reasonably assured. Revenue is recognized for domestic and international sales at the shipping point or delivery to customers, based on the related shipping terms. Risk of loss transfers at the point of shipment or delivery to customers, and the Company has no further obligation after such time. Sales are made directly to customers and through distributors. Payment terms for distributors are consistent with the terms of the Company's direct customers. The Company records a provision for sales returns, sales incentives and warranty costs at the time of the sale based on historical experience and current trends.

JDL generally records revenue on hardware, software and related equipment sales and installation contracts when the revenue recognition criteria are met and products are installed and accepted by the customer. JDL records revenue on service contracts on a straight-line basis over the contract period, unless evidence suggests the revenue is

earned in a different pattern. Each contract is individually reviewed to determine when the earnings process is complete.

Research and development: Research and development costs consist of outside testing services, equipment and supplies associated with enhancing existing products and developing new products. Research and development costs are expensed when incurred and totaled \$7,835,000 in 2014, \$2,760,000 in 2013 and \$2,304,000 in 2012.

Net income per share: Basic net income per common share is based on the weighted average number of common shares outstanding during each year. Diluted net income per common share adjusts for the dilutive effect of potential common shares outstanding. The Company's only potential common shares outstanding are stock options and unvested shares, which resulted in a dilutive effect of 18,384 shares, 0 shares and 10,116 shares in 2014, 2013 and 2012, respectively. The Company calculates the dilutive effect of outstanding options and unvested shares using the treasury stock method. The number of shares not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market price of common stock during the year for 2014, 2013, and 2012 was 243,427, 0 and 80,290, respectively. Due to the net loss in 2013, there was no dilutive impact from outstanding stock options or unvested shares.

Share based compensation: The Company accounts for share based compensation awards on a fair value basis. The estimated grant date fair value of each stock-based award is recognized in income over the requisite service period (generally the vesting period). The estimated fair value of each option is calculated using the Black-Scholes option-pricing model.

Accounting standards issued:

In May 2014, the Financial Accounting Standards Board (FASB) issued a new accounting standard update on revenue recognition from contracts with customers. The new guidance will replace all current U.S. GAAP guidance on this topic and eliminate all industry-specific guidance. According to the new guidance, revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration the Company expects to receive in exchange for those goods or services. This guidance will be effective for the Company beginning January 1, 2017 and can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. Early adoption is not permitted. The Company has not yet selected a transition method and is evaluating the impact of adopting this new accounting standard update on the financial statements and related disclosures.

In January 2015, the FASB issued guidance that eliminates from GAAP the concept of an extraordinary item. As a result, an entity will no longer (1) segregate an extraordinary item from the results of ordinary operations; (2) separately present an extraordinary item on its income statement, net of tax, after income from continuing operations; and (3) disclose income taxes and earnings-per-share data applicable to an extraordinary item. The new guidance will be effective for us in our first quarter of 2016 and early adoption is permitted. We do not expect the adoption of this standard to have a material effect on our reporting and disclosure.

Accounting standards adopted:

There have been no new accounting pronouncements or changes in accounting pronouncements adopted during the period that are of significance or potential significance to the Company.

NOTE 2 – CASH EQUIVALENTS AND INVESTMENTS

The following tables show the Company’s cash equivalents and available-for-sale securities’ amortized cost, gross unrealized gains, gross unrealized losses and fair value by significant investment category recorded as cash equivalents or short and long term investments as of December 31, 2014 and December 31, 2013:

December 31, 2014							
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cash Equivalents	Short-Term Investments	Long-Term Investments
Cash equivalents:							
Money Market funds	\$ 1,073,000	\$ -	\$ -	\$ 1,073,000	\$ 1,073,000	\$ -	\$ -
Subtotal	<u>1,073,000</u>	<u>-</u>	<u>-</u>	<u>1,073,000</u>	<u>1,073,000</u>	<u>-</u>	<u>-</u>
Investments:							
Certificates of deposit	7,414,000	1,000	(32,000)	7,383,000	-	1,920,000	5,463,000
Corporate Notes/Bonds	8,777,000	6,000	(23,000)	8,760,000	-	2,683,000	6,077,000
Subtotal	<u>16,191,000</u>	<u>7,000</u>	<u>(55,000)</u>	<u>16,143,000</u>	<u>-</u>	<u>4,603,000</u>	<u>11,540,000</u>
Total	<u>\$ 17,264,000</u>	<u>\$ 7,000</u>	<u>\$ (55,000)</u>	<u>\$ 17,216,000</u>	<u>\$ 1,073,000</u>	<u>\$ 4,603,000</u>	<u>\$ 11,540,000</u>

December 31, 2013							
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Cash Equivalents	Short-Term Investments	Long-Term Investments
Cash equivalents:							
Money Market funds	\$ 5,752,000	\$ -	\$ -	\$ 5,752,000	\$ 5,752,000	\$ -	\$ -
Subtotal	<u>5,752,000</u>	<u>-</u>	<u>-</u>	<u>5,752,000</u>	<u>5,752,000</u>	<u>-</u>	<u>-</u>
Investments:							
Certificates of deposit	4,024,000	1,000	(5,000)	4,020,000	240,000	2,583,000	1,197,000
Corporate Notes/Bonds	5,861,000	23,000	(1,000)	5,883,000	-	3,159,000	2,724,000
Subtotal	<u>9,885,000</u>	<u>24,000</u>	<u>(6,000)</u>	<u>9,903,000</u>	<u>240,000</u>	<u>5,742,000</u>	<u>3,921,000</u>
Total	<u>\$ 15,637,000</u>	<u>\$ 24,000</u>	<u>\$ (6,000)</u>	<u>\$ 15,655,000</u>	<u>\$ 5,992,000</u>	<u>\$ 5,742,000</u>	<u>\$ 3,921,000</u>

The Company tests for other than temporary losses on a quarterly basis and has considered the unrealized losses indicated above to be temporary in nature. The Company intends to hold the investments until it can recover the full principal amount and has the ability to do so based on other sources of liquidity. The Company expects such recoveries to occur prior to the contractual maturities. All unrealized losses as of December 31, 2014 were in a continuous unrealized loss position for less than twelve months and are not deemed to be other than temporarily impaired as of December 31, 2014.

The following table summarizes the estimated fair value of our investments, designated as available-for-sale and classified by the contractual maturity date of the securities as of December 31, 2014:

	Amortized Cost	Estimated Market Value
Due within one year	\$ 4,598,000	\$ 4,603,000
Due after one year through five years	<u>11,593,000</u>	<u>11,540,000</u>
	<u>\$ 16,191,000</u>	<u>\$ 16,143,000</u>

The Company did not recognize any gross realized gains and gross realized losses were immaterial during the years ending December 31, 2014 and 2013, respectively. If the Company had realized gains or losses, they would be included within investment and other income in the accompanying consolidated statements of income.

NOTE 3 - INVENTORIES

Inventories consist of:

	December 31	
	2014	2013
Finished goods	\$ 19,208,000	\$ 18,734,000
Raw and processed materials	11,902,000	10,378,000
	<u>\$ 31,110,000</u>	<u>\$ 29,112,000</u>

NOTE 4 - PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment and the estimated useful lives are as follows:

	Estimated useful life	December 31	
		2014	2013
Land		\$ 3,107,000	\$ 3,116,000
Buildings and improvements	7-40 years	8,523,000	8,528,000
Machinery and equipment	3-15 years	28,728,000	25,408,000
Furniture and fixtures	5-10 years	3,490,000	4,042,000
Construction in progress		1,925,000	617,000
		<u>45,773,000</u>	<u>41,711,000</u>
Less accumulated depreciation		<u>(27,620,000)</u>	<u>(26,770,000)</u>
		<u>\$ 18,153,000</u>	<u>\$ 14,941,000</u>

NOTE 5 - INTANGIBLE ASSETS

The Company's identifiable intangible assets with finite lives are being amortized over their estimated useful lives and are included within other assets in the consolidated balance sheets and were as follows:

	December 31, 2014			
	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Translation	Net
Trademarks	91,000	(38,000)	(4,000)	49,000
Customer relationships	491,000	(159,000)	(26,000)	306,000
Technology	229,000	(149,000)	(11,000)	69,000
	<u>811,000</u>	<u>(346,000)</u>	<u>(41,000)</u>	<u>424,000</u>
	December 31, 2013			
	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Translation	Net
Trademarks	82,000	(17,000)	(11,000)	54,000
Customer relationships	491,000	(73,000)	(43,000)	375,000
Technology	229,000	(68,000)	(42,000)	119,000
	<u>802,000</u>	<u>(158,000)</u>	<u>(96,000)</u>	<u>548,000</u>

Amortization expense on these identifiable intangible assets was \$107,000, \$102,000, and \$103,000 in 2014, 2013 and 2012 respectively. The amortization expense is included in selling, general and administrative expenses. The estimated future amortization expense for identifiable intangible assets during the next five fiscal years is as follows:

Year Ending December 31:	
2015	\$ 101,000
2016	83,000
2017	58,000
2018	53,000
2019	47,000

NOTE 6 - EMPLOYEE RETIREMENT BENEFITS

The Company has an Employee Savings Plan (401(k)) and matches a percentage of employee contributions up to six percent of compensation. Contributions to the plan in 2014, 2013 and 2012 were \$528,000, \$457,000, and \$471,000, respectively.

The Company's U.K.-based subsidiary Austin Taylor maintains defined benefit pension plans that cover two active employees. The Company does not provide any other post-retirement benefits to its employees. The following table summarizes the balance sheet impact, including benefit obligations, assets and funded status of Austin Taylor's pension plans at December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Change in benefit obligation:		
Benefit obligation at the beginning of the year	\$ 3,340,000	\$ 5,675,000
Service cost	8,000	5,000
Interest cost	143,000	186,000
Augmentations	-	211,000
Actuarial losses/(gains)	363,000	(198,000)
Benefits paid	(78,000)	(293,000)
Changes due to plan settlement	-	(2,363,000)
Foreign currency (losses)/gains	(192,000)	117,000
Benefit obligation at the end of the year	<u>3,584,000</u>	<u>3,340,000</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	3,645,000	5,547,000
Actual return on plan assets	340,000	343,000
Employer contributions	59,000	297,000
Benefits paid	(78,000)	(293,000)
Changes due to plan settlement	-	(2,363,000)
Foreign currency (gains)/losses	(210,000)	114,000
Fair value of plan assets at end of year	<u>3,756,000</u>	<u>3,645,000</u>
Funded status at end of year – net asset	<u>\$ 172,000</u>	<u>\$ 305,000</u>

Weighted average assumptions used to determine net periodic pension costs:

Discount rate	3.6%	4.6%
Expected return on assets	3.6%	5.5%

The plans are funded through equities and bonds recorded in the financial statements at fair value. The related amounts for each of these investments were \$3,756,000 and \$3,645,000 as of December 31, 2014 and 2013 and were determined to be level 2 investments, respectively. Level 2 investments are valued based on observable inputs such as quoted prices for similar instruments and quoted prices in markets that are not active.

The Company does not expect any plan assets to be returned to the Company during the twelve months subsequent to December 31, 2014.

The Company expects to make contributions of \$76,000 to the plan in 2015.

The Company estimates its future pension benefit payments will be as follows:

2015	\$ 268,000
2016	97,000
2017	165,000
2018	148,000
2019	136,000
2020 thru 2024	801,000

Components of the Company's net periodic pension (benefit) cost are:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Service cost	\$ 8,000	\$ 5,000	\$ 275,000
Interest cost	143,000	186,000	244,000
Expected return on assets	(188,000)	(229,000)	(262,000)
Amortization of prior service cost	-	211,000	-
Net periodic pension (benefit) cost	<u>\$ (37,000)</u>	<u>\$ 173,000</u>	<u>\$ 257,000</u>

NOTE 7 – COMMITMENTS AND CONTINGENCIES

Operating leases: The Company leases land, buildings and equipment under operating leases with original terms from 1 to 5 years. Total rent expense was \$546,000, \$409,000 and \$443,000 in 2014, 2013 and 2012 respectively. At December 31, 2014, the Company was obligated under noncancelable operating leases to make minimum annual future lease payments as follows:

Year Ending December 31:	
2015	\$ 290,000
2016	86,000
	<u>\$ 376,000</u>

Long-term debt: The mortgage on the Company's headquarters building is payable in monthly installments and carries an interest rate of 6.83%. The mortgage matures on March 1, 2016. The outstanding balance on the mortgage was \$628,000 at December 31, 2014. The mortgage is secured by the building.

The annual requirements for principal payments on the mortgage are as follows:

2015	524,000
2016	104,000

Line of credit: The Company has a \$10,000,000 line of credit from Wells Fargo Bank. The Company had no outstanding borrowings against the line of credit at December 31, 2014 and 2013 and the entire credit line is available for use. Interest on borrowings on the credit line is at LIBOR plus 1.1% (1.4% at December 31, 2014). The credit agreement expires October 31, 2016 and is secured by assets of the Company. Our credit agreement contains financial covenants including current ratio, net income, and tangible net worth minimums. The Company was in compliance with all financial covenants as of December 31, 2014.

As of December 31, 2014, the Company had no other material commitments (either cancelable or non-cancelable) for capital expenditures or other purchase commitments related to ongoing operations.

Long-term compensation plans: The Company has a long term incentive plan. The plan provides long-term competitive compensation to enable the Company to attract and retain qualified executive talent and to reward employees for achieving goals and improving company performance. The plan provides grants of "performance units" made at the beginning of performance periods and paid at the end of the period if performance goals are met. Awards were previously made every other year and are paid following the end of the cycle with annual vesting. Payment in the case of retirement, disability or death will be on a pro rata basis. The Company recognized (income)/expense of \$0, \$ (124,000) and \$ (16,000) in 2014, 2013 and 2012, respectively. Accrual balances for long-term compensation plans at December 31, 2014 and 2013 were \$0 and \$199,000, respectively. Awards paid were \$199,000 in 2014, \$27,000 in 2013 and \$1,657,000 in 2012. Awards for the 2012 to 2014 cycles will be paid out 25% in cash and 75% in stock and awards for the 2013 to 2015 cycles will be paid out 100% in stock. Starting in 2014, all long term compensation is awarded in stock. The stock portion of these awards are treated as equity plans and included within the Stock Compensation footnote within the Deferred Stock Outstanding section below.

Other contingencies: In the ordinary course of business, the Company is exposed to legal actions and claims and incurs costs to defend against such actions and claims. Company management is not aware of any outstanding or pending legal actions or claims that would materially affect the Company's financial position, results of operations, or cash flows.

NOTE 8 – STOCK COMPENSATION

2011 Executive Incentive Compensation Plan

On March 28, 2011 the Board adopted and on May 19, 2011 the Company's shareholders approved the Company's 2011 Executive Incentive Compensation Plan ("2011 Incentive Plan"). The 2011 Incentive Plan authorizes incentive awards to officers, key employees and non-employee directors in the form of options (incentive and non-qualified), stock appreciation rights, restricted stock, restricted stock units, performance stock units ("deferred stock"), performance cash units, and other awards in stock, cash, or a combination of stock and cash. Up to 1,000,000 shares of our Common Stock may be issued pursuant to awards under the 2011 Incentive Plan.

During 2014, stock options covering 317,722 shares were awarded to key executive employees and non-employee directors, which options expire seven years from the date of award and vest 25% each year beginning one year after the date of award. The Company also granted deferred stock awards of 43,824 shares to key employees during 2014 under the Company's long-term incentive plan that vest over three years with the first vesting period at March 28, 2015.

At December 31, 2014, 321,928 shares remained available for future issuance under the 2011 Incentive Plan.

Stock Option Plan for Directors

Shares of common stock are reserved for issuance to non-employee directors under options granted by the Company prior to 2011 under its Stock Option Plan for Non-Employee Directors (the "Director Plan"). Under the Director Plan nonqualified stock options to acquire 3,000 shares of common stock were automatically granted to each non-employee director concurrent with annual meetings of shareholders in 2010 and earlier years and vested immediately. The exercise price of options granted was the fair market value of the common stock on the date of the respective shareholder meetings. Options granted under the Director Plan expire 10 years from date of grant.

The Director Plan was suspended as of May 19, 2011 to prohibit automatic option grants in 2011 in connection with seeking and receiving shareholder approval of the 2011 Incentive Plan, at the 2011 Annual Meeting of Shareholders. As shareholder approval was received, the Board amended the Director Plan to prohibit any future option awards under that plan on August 11, 2011. No stock options were granted to non-employee directors in 2014, 2013 and 2012.

Stock Plan

Under the Company's 1992 Stock Plan ("the Stock Plan"), shares of common stock may be issued pursuant to stock options, restricted stock or deferred stock grants to officers and key employees. Exercise prices of stock options under the Stock Plan cannot be less than fair market value of the stock on the date of grant. Rules and conditions governing awards of stock options, restricted stock and deferred stock are determined by the Compensation Committee of the Board of Directors, subject to certain limitations in the Stock Plan. When seeking approval of the 2011 Incentive Plan at the 2011 Annual Meeting of Shareholders, the Company committed to amending the Stock Plan to prohibit the issuance of future equity awards if such approval was given. Effective August 11, 2011, the amendment to prohibit future stock options or other equity awards was approved by the Board.

At December 31, 2014 after reserving for stock options and deferred stock awards described in the two preceding paragraphs and adjusting for forfeitures and issuances during the year, there were 22,008 shares reserved for issuance under the Stock Plan. The Company did not award stock options or deferred stock under this plan in 2014.

Stock Options Outstanding

The following table summarizes changes in the number of outstanding stock options under the Director Plan and Stock Plan during the three years ended December 31, 2014.

	<u>Options</u>		<u>Weighted average exercise price per share</u>	<u>Weighted average remaining contractual term</u>
Outstanding – December 31, 2011	236,820	\$	11.35	5.18 years
Awarded	92,223		13.10	
Exercised	(12,000)		7.13	
Forfeited	(5,890)		10.58	
Outstanding – December 31, 2012	311,153	\$	12.05	4.99 years
Awarded	169,550		10.19	
Exercised	(15,000)		7.35	
Forfeited	(156,264)		11.25	
Outstanding – December 31, 2013	309,439	\$	11.66	4.13 years
Awarded	317,722		12.30	
Exercised	(12,000)		8.28	
Forfeited	(74,757)		13.20	
Outstanding – December 31, 2014	540,404		11.90	5.13 years
Exercisable at December 31, 2014	182,638	\$	11.40	3.17 years
Expected to vest December 31, 2014	540,404		11.90	5.13 years

The fair value of awards issued under the Company's stock option plan is estimated at grant date using the Black-Scholes option-pricing model. The following table displays the assumptions used in the model.

	<u>Year Ended December 31</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
Expected volatility	31.4%	31.8%	31.2%
Risk free interest rate	2.7%	2.1%	2.3%
Expected holding period	6 years	6 years	6 years
Dividend yield	5.2%	6.3%	4.6%

Total unrecognized compensation expense was \$423,000 as of December 31, 2014, which is expected to be recognized over the next 2.6 years. The aggregate intrinsic value of all outstanding options, exercisable options, and options expected to vest (the amount by which the market price of the stock on the last day of the period exceeded the market price of the stock on the date of grant) was \$56,000 based on the Company's stock price at December 31, 2014. The intrinsic value of options exercised during the year was \$40,000, \$38,000 and \$59,000 in 2014, 2013 and 2012, respectively. Net cash proceeds from the exercise of all stock options were \$99,000, \$110,000 and \$86,000 for 2014, 2013 and 2012, respectively. The following table summarizes the status of stock options outstanding at December 31, 2014:

<u>Range of Exercise Prices</u>	<u>Shares</u>	<u>Weighted Average Remaining Option Life</u>	<u>Weighted Average Exercise Price</u>
\$8.65 to \$9.99	30,000	3.2 years	9.68
\$10.00 to \$12.00	294,225	5.3 years	11.24
\$12.01 to \$14.50	216,179	5.2 years	13.11

The Company receives an income tax benefit related to the gains received by officers and key employees who make disqualifying dispositions of stock received on exercise of qualified incentive stock options and on non-qualified options. The amount of tax benefit received by the Company was \$14,000, \$14,000 and \$21,000 in 2014, 2013 and 2012 respectively. The tax benefit amounts have been credited to additional paid-in capital.

Deferred Stock Outstanding

The following table summarizes the changes in the number of deferred stock shares under the Stock Plan and 2011 Incentive Plan over the period December 31, 2011 to December 31, 2014:

	<u>Shares</u>	<u>Weighted Average Grant Date Fair Value</u>
Outstanding – December 31, 2011	71,849	\$ 15.14
Granted	105,698	13.49
Vested	-	-
Forfeited	<u>(16,757)</u>	13.95
Outstanding – December 31, 2012	160,790	14.16
Granted	222,654	10.08
Vested	(1,849)	14.82
Forfeited	<u>(181,455)</u>	12.11
Outstanding – December 31, 2013	200,140	11.47
Granted	48,824	12.52
Vested	(16,754)	13.81
Forfeited	<u>(70,896)</u>	13.02
Outstanding – December 31, 2014	161,314	10.87

The grant date fair value is calculated based on the Company's closing stock price as of the grant date. As of December 31, 2014, the total unrecognized compensation expense related to the deferred stock shares was \$342,000 and is expected to be recognized over a weighted-average period of 2.1 years.

Restricted Stock Units Outstanding

The following table summarizes the changes in the number of restricted stock units under the 2011 Incentive Plan over the period December 31, 2012 to December 31, 2014:

	<u>Shares</u>	<u>Weighted Average Grant Date Fair Value</u>
Outstanding – December 31, 2011	-	\$ -
Granted	25,879	10.82
Vested	-	-
Forfeited	-	-
Outstanding – December 31, 2012	25,879	10.82
Granted	31,354	10.05
Vested	-	-
Forfeited	<u>(4,040)</u>	9.90
Outstanding – December 31, 2013	53,193	10.44
Granted	13,973	11.98
Vested	(28,015)	10.89
Forfeited	<u>-</u>	-
Outstanding – December 31, 2014	39,151	10.67

The grant date fair value is calculated based on the Company's closing stock price as of the grant date. As of December 31, 2014, the total unrecognized compensation expense related to the restricted stock units was \$61,000 and is expected to be recognized over a weighted-average period of 0.4 years.

Compensation Expense

Share-based compensation expense is recognized based on the fair value of awards granted over the vesting period of the award. Share-based compensation expense/(income) recognized for 2014, 2013 and 2012 was \$785,000, \$

(81,000) and \$303,000 before income taxes and \$510,000, \$ (53,000) and \$197,000 after income taxes, respectively. Share-based compensation expense is recorded as a part of selling, general and administrative expenses.

Employee Stock Purchase Plan

Under the Company's Employee Stock Purchase Plan ("ESPP") employees are able to acquire shares of common stock at 90% of the price at the end of each current quarterly plan term. The most recent term ended December 31, 2014. The ESPP is considered compensatory under current rules. At December 31, 2014, after giving effect to the shares issued as of that date, 21,483 shares remain available for purchase under the ESPP.

Employee Stock Ownership Plan (ESOP)

All eligible employees of the Company participate in the ESOP after completing one year of service. Contributions are allocated to each participant based on compensation and vest 30% after three years of service and incrementally thereafter, with full vesting after seven years. At December 31, 2014, the ESOP held 557,375 shares of the Company's common stock, all of which have been allocated to the accounts of eligible employees. Contributions to the plan are determined by the Board of Directors and can be made in cash or shares of the Company's stock. The 2014 ESOP contribution was \$385,424 for which the Company will issue 36,707 shares in March 2015. The 2013 ESOP contribution was \$362,273 for which the Company issued 32,520 shares in 2014. The Company's 2012 ESOP contribution was \$463,819 for which the Company issued 44,598 shares of common stock to the ESOP in 2013.

NOTE 9 – COMMON STOCK

PURCHASES OF COMMUNICATIONS SYSTEMS, INC. COMMON STOCK

In October 2008, the Company's Board of Directors authorized the repurchase of shares of the Company's stock pursuant to Exchange Act Rule 10b-18 on the open market, in block trades or in private transactions. At December 31, 2014, 411,910 additional shares could be repurchased under outstanding Board authorizations.

SHAREHOLDER RIGHTS PLAN

On December 23, 2009 the Board of Directors adopted a shareholders' rights plan. Under this plan, the Board of Directors declared a distribution of one right per share of common stock. Each right entitles the holder to purchase 1/100th of a share of a new series of Junior Participating Preferred Stock of the Company at an initial exercise price of \$41. The rights expire on December 23, 2019. The rights will become exercisable only following the acquisition by a person or group, without the prior consent of the Board of Directors, of 16.5% or more of the Company's voting stock, or following the announcement of a tender offer or exchange offer to acquire an interest of 16.5% or more. If the rights become exercisable, each rightholder will be entitled to purchase, at the exercise price, common stock with a market value equal to twice the exercise price. Should the Company be acquired, each right would entitle the holder to purchase, at the exercise price, common stock of the acquiring company with a market value equal to twice the exercise price. Any rights owned by the acquiring person or group would become void.

NOTE 10 - INCOME TAXES

Income tax expense from continuing operations consists of the following:

	Year Ended December 31		
	2014	2013	2012
Currently payable income taxes:			
Federal	\$ 328,000	\$ 2,114,000	\$ 1,669,000
State	(12,000)	297,000	141,000
Foreign	113,000	(32,000)	(18,000)
	<u>429,000</u>	<u>2,379,000</u>	<u>\$ 1,792,000</u>
Deferred income taxes (benefit):			
Federal	\$ 761,000	\$ (303,000)	\$ (542,000)
State	40,000	18,000	(33,000)
Foreign	(11,000)	(33,000)	(57,000)
	<u>790,000</u>	<u>(318,000)</u>	<u>(632,000)</u>
	<u>\$ 1,219,000</u>	<u>\$ 2,061,000</u>	<u>\$ 1,160,000</u>

Austin Taylor Communications, Ltd. operates in the United Kingdom (U.K.) and is subject to U.K. rather than U.S. income taxes. Austin Taylor had pretax losses of \$389,000, \$428,000 and \$419,000 in 2014, 2013 and 2012 respectively. At the end of 2014, Austin Taylor's net operating loss carry-forward was \$6,957,000. The Company remains uncertain that it will be able to generate the future income needed to realize the tax benefit of the carry-forward. Accordingly, the Company has continued to maintain its deferred tax valuation allowance against the potential carry-forward benefit.

Transition Networks EMEA, Ltd. operates in the U.K. and is subject to U.K. rather than U.S. income taxes. Transition Networks EMEA, Ltd. had pretax losses of \$54,000 and \$2,754,000 in 2014 and 2013, respectively and pretax income of \$316,000 in 2012. Austin Taylor's net operating loss provided group relief to Transition Networks EMEA, Ltd. during 2012. At the end of 2014, Transition Networks EMEA, Ltd.'s net operating loss carry-forward was \$37,000.

In 2007, Transition Networks China began operations in China and is subject to Chinese taxes rather than U.S. income taxes. Transition Networks China had pretax income of \$345,000, \$341,000, \$36,000 in 2014, 2013, and 2012 respectively. At the end of 2014, Transition Networks China's net operating loss carry-forward was \$460,000. Due to the history of losses in China the Company remains uncertain that it will be able to generate the future income needed to realize the tax benefit of the carry-forward. Accordingly, the Company has continued to maintain its deferred tax valuation reserve against the potential carry-forward benefit.

Suttle Costa Rica, S.A. operates in Costa Rica and is subject to Costa Rica income taxes. In 2005, the Board of Directors of Suttle Costa Rica S. A. declared a dividend in the amount of \$3,500,000 payable to the Company. The dividend and related "dividend reinvestment plan" qualify under Internal Revenue Code Sec. 965, which allows the Company to receive an 85% dividend-received deduction if the amount of the dividend is reinvested in the United States pursuant to a domestic reinvestment plan. The Company made the required qualified capital expenditures in 2006. It is the Company's intention to maintain the remaining undistributed earnings in its Costa Rica subsidiary to support continued operations there. No deferred taxes have been provided for the undistributed earnings.

Suttle Costa Rica had pretax income of \$321,000, \$152,000 and \$168,000 in 2014, 2013 and 2012 respectively. At the end of 2012, Suttle Costa Rica's net operating loss carry-forward was \$0.

The provision for income taxes for continuing operations varied from the federal statutory tax rate as follows:

	Year Ended December 31		
	2014	2013	2012
Tax at U.S. statutory rate	35.0%	35.0%	35.0%
Surtax exemption	(0.7)	(5.4)	(1.5)
State income taxes, net of federal benefit	1.0	19.1	1.7
Foreign income taxes, net of foreign tax credits	7.8	3.3	(0.2)
Impairment of goodwill	-	116.2	-
Other nondeductible items	3.1	4.9	-
Effect of (decrease) increase in uncertain tax positions	(10.2)	7.3	-
Other	2.3	6.4	(0.9)
Effective tax rate	<u>38.3%</u>	<u>186.8%</u>	<u>34.1%</u>

Deferred tax assets and liabilities as of December 31 related to the following:

	<u>2014</u>	<u>2013</u>
Deferred tax assets:		
Allowance for doubtful accounts	\$ 4,000	\$ 19,000
Inventory	2,779,000	3,295,000
Accrued and prepaid expenses	594,000	502,000
Domestic net operating loss carry-forward	-	26,000
Long-term compensation plans	380,000	373,000
Nonemployee director stock compensation	403,000	243,000
Other stock compensation	118,000	111,000
State income taxes	-	75,000
Foreign net operating loss carry-forwards and credits	<u>1,743,000</u>	<u>1,639,000</u>
Gross deferred tax assets	6,021,000	6,283,000
Valuation allowance	<u>(1,734,000)</u>	<u>(1,618,000)</u>
Net deferred tax assets	<u>4,287,000</u>	<u>4,665,000</u>
Deferred tax liabilities		
Depreciation	(2,110,000)	(1,668,000)
Intangible assets	<u>(18,000)</u>	<u>(47,000)</u>
Gross deferred tax liability	<u>(2,128,000)</u>	<u>(1,715,000)</u>
Total net deferred tax asset	<u>\$ 2,159,000</u>	<u>\$ 2,950,000</u>

The Company assesses uncertain tax positions in accordance with ASC 740. Under this method, the Company must recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such uncertain tax positions are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate resolution. The Company's practice is to recognize interest and penalties related to income tax matters in income tax expense.

Changes in the Company's uncertain tax positions are summarized as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Uncertain tax positions – January 1	\$ 240,000	\$ 153,000	\$ 234,000
Gross increases - tax positions in prior period	0	0	0
Gross decreases - tax positions in prior period	(73,000)	0	0
Gross increases - current period tax positions	0	158,000	0
Settlements	(85,000)	(5,000)	0
Expiration of statute of limitations	(7,000)	(66,000)	(81,000)
Uncertain tax positions – December 31, 2014	<u>\$ 75,000</u>	<u>\$ 240,000</u>	<u>\$ 153,000</u>

Included in the balance of uncertain tax positions at December 31, 2014 are \$76,000 of tax benefits that if recognized would affect the tax rate. There are no expected significant changes in the Company's uncertain tax positions in the next twelve months. The Company's income tax liability accounts included accruals for interest and penalties of \$2,000 at December 31, 2014. The Company's 2014 income tax expense decreased by \$159,000 due to net decreases for accrued interest and penalties.

The Company's federal and state tax returns and tax returns it has filed in Costa Rica and the United Kingdom are open for review going back to the 2011 tax year.

NOTE 11- INFORMATION CONCERNING INDUSTRY SEGMENTS AND MAJOR CUSTOMERS

Effective January 1, 2014, the Company realigned the financial reporting for its business units. As a result of this realignment, all corporate general and administrative expenses that were previously categorized as “Other” are now included within the three business units as fully allocated costs. The Company classifies its businesses into three segments as follows:

- Suttle manufactures and markets copper and fiber connectivity systems, enclosure systems, xDSL filters and splitters, and active technologies for voice, data and video communications;
- Transition Networks manufactures media converters, NIDs, NICs, Ethernet switches and other connectivity products that offer the ability to affordably integrate the benefits of fiber optics into any data network; and
- JDL Technologies provides technology solutions including virtualization, managed services, wired and wireless network design and implementation services, and converged infrastructure configuration and deployment.

Management has chosen to organize the enterprise and disclose reportable segments based on products and services. There are no material intersegment revenues. In order to conform to the 2014 presentation, the Company has reclassified the previously non-allocated corporate expenses within the business segments.

Suttle products are sold principally to U.S. customers. Suttle operates manufacturing facilities in the U.S. and Costa Rica. Net long-lived assets held in foreign countries were approximately \$2,810,000 and \$1,225,000 at December 31, 2014 and 2013, respectively. Transition Networks manufactures its products in the United States and makes sales in both the U.S. and international markets. JDL Technologies operates in the U.S. and makes sales in the U.S. Consolidated sales to U.S. customers were approximately 86%, 87% and 83% of sales from continuing operations in 2014, 2013 and 2012 respectively. In 2014, sales to one of Suttle’s customers accounted for 33.6% of consolidated sales. In 2013, sales to one of JDL Technologies’ customers accounted for 17.5% of consolidated sales and one of Suttle’s customers accounted for 18.7% of consolidated sales. In 2012, sales to one of Transition Networks’ customers accounted for 10.6% of consolidated sales and one of Suttle’s customers accounted for 16.6% of consolidated sales.

Information concerning the Company’s operations in the various segments for the twelve-month periods ended December 31, 2014, 2013 and 2012 is as follows:

	Suttle	Transition Networks	JDL Technologies	Other	Total
2014					
Sales	\$ 67,330,307	\$ 43,173,864	\$ 8,567,268	\$ -	\$ 119,071,439
Cost of sales	46,338,627	23,975,363	6,598,891	-	76,912,881
Gross profit	20,991,680	19,198,501	1,968,377	-	42,158,558
Selling, general and administrative expenses	14,388,765	21,392,643	2,846,393	-	38,627,801

NOTE 12 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date:

Level 1 – Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date.

Level 2 – Observable inputs such as quoted prices for similar instruments and quoted prices in markets that are not active, and inputs that are directly observable or can be corroborated by observable market data. The types of assets and liabilities included in Level 2 are typically either comparable to actively traded securities or contracts, such as treasury securities with pricing interpolated from recent trades of similar securities, or priced with models using highly observable inputs, such as commodity options priced using observable forward prices and volatilities.

Level 3 – Significant inputs to pricing that have little or no observability as of the reporting date. The types of assets and liabilities included in Level 3 are those with inputs requiring significant management judgment or estimation, such as the complex and subjective models and forecasts used to determine the fair value of financial instruments.

Financial assets and liabilities measured at fair value as of December 31, 2014 and December 31, 2013, are summarized below:

	December 31, 2014			Total Fair Value
	Level 1	Level 2	Level 3

The estimated fair value of remaining contingent consideration as of December 31, 2013 was \$558,801, as noted above. The estimated fair value is considered a level 3 measurement because the probability weighted discounted cash flow methodology used to estimate fair value includes the use of significant unobservable inputs, primarily the

contractual contingent consideration gross margin targets and assumed probabilities. The change in the estimated contingent consideration during 2014 was due to \$566,000 in payments and \$7,000 in foreign currency gains.

We record transfers between levels of the fair value hierarchy, if necessary, at the end of the reporting period. There were no transfers between levels during 2014 and 2013.

NOTE 13 – RESTRUCTURING CHARGES

During the year end December 31, 2014, the Company recorded \$238,000 in restructuring expense. This consisted of severance and related benefits costs due to the restructuring within the Transition Networks business segment, including ongoing costs related to the closure of the China facility. The facility was completely closed in the second quarter of 2014. The Company paid \$724,000 in restructuring charges in 2014 related to accruals at the end of 2013 as well as new charges in 2014 and we had no restructuring accruals recorded at December 31, 2014.

NOTE 14 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the date of this filing. We do not believe there are any material subsequent events which would require further disclosure.

We recorded a \$1.1 million inventory reserve charge within cost of sales in the Consolidated Income Statement associated with the identification of excess and obsolete inventory at our Transition Networks business unit during the fourth quarter of 2014.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A: CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”).

Our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the applicable rule and forms.

Management’s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal control -- Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Operating Effectiveness of Accounting and Control Procedures. As a result of our evaluation, our management concluded that as of December 31, 2014, our internal control over financial reporting is effective.

Changes in Internal Control over Financial Reporting There was no change in the Company’s internal control over financial reporting that occurred during the Company’s most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

The Company’s independent registered public accounting firm, Deloitte & Touche LLP, has issued a report on the effectiveness of the Company’s internal control over financial reporting as of December 31, 2014. That report is set forth immediately following the report of Deloitte & Touche LLP on the consolidated financial statements included herein.

ITEM 9B. OTHER INFORMATION

JDL Multi-Year Contract

On March 9, 2015, the Company announced that its JDL Technologies, Inc., had been awarded a new contract by the School Board of Broward County to provide Local Area Network, Wireless Local Area Network and data center upgrades, among other IT services, to the public K-12 schools of Broward County, Florida. The Company estimates that the contract has the potential to generate up to approximately \$83 million of revenue over the next five years. Although JDL Technologies expects to begin providing services under the contract in the second quarter of calendar 2015, JDL Technologies and the School Board of Broward County have not finalized the timing of the services that will be delivered under the contract.

2015 Executive Compensation

2015 Executive Officer Base Salaries

The Compensation Committee and the Board of Directors of Communications Systems, Inc. (the “Company”) approved annual base salaries for the following executive officers (who are expected to be the Company’s five highest paid executives in 2015) in the amounts respectively indicated effective January 1, 2015:

<u>Executive Officer and Title</u>	<u>2015 Base Salary</u>	<u>% increase over 2014</u>
Roger H. D. Lacey Vice Chairman and CEO	\$250,000	-
Edwin C. Freeman Chief Financial Officer	\$212,180	3%
Bruce Blackwood President & General Manager, Suttle Inc.	\$214,283	5%
Scott Otis President & General Manager, Transition Networks, Inc.	\$206,559	5%
Scott Fluegge President & General Manager, JDL Technologies, Inc.	\$190,962	3%

Grant of 2015 Awards Under the Annual Bonus Plan

On February 27, 2015, pursuant to the Communications Systems, Inc. Annual Bonus Plan (“Bonus Plan”) the Compensation Committee and the Board awarded bonus opportunities to the executive officers named above (the “Named Executives”).

Under the Bonus Plan applicable to the 2015 fiscal year, the Compensation Committee determines quarterly and annual “minimum,” “target” and “maximum” performance goals for the Company’s three business units. Performance measures for the three business units generally include revenue and operating income, with primary weight given to achieving revenue and operating income targets. Also, the performance goals are, in a number of instances, segmented such that 50% of the bonus opportunity is tied to achievement of quarterly or six month performance goals and 50% of the bonus opportunity is tied to achievement of performance goals for the fiscal year. The three Named Executives leading business units earn bonuses based on achievement in comparison goals determined for their respective business unit, while the CEO and CFO will (i) earn 80% of their bonus based on achievement by the three business units compared to their respective goals, which will be weighted 54.5% with respect to Suttle’s performance, 36.8% as to Transition Network’s performance and 8.7% as to JDL’s performance and (ii) earn 20% of their potential long term incentive opportunity based on performance measures to be determined and approved by the Compensation Committee prior to March 31, 2015. Bonuses for quarterly and six month goals during the first nine months of the fiscal year are paid approximately 45 days after the period measured and bonuses earned based on achievement in comparison in the last six months or fourth quarter and over the full year are paid out approximately 75 days after fiscal year end. Payments of bonuses generally begin at achievement exceeding 80% or more of target performance goals. Bonuses are paid in cash. The target and maximum bonus each Named Executive may potentially earn under the Annual Bonus Plan is based upon a percentage of their base salary. Under the 2015 Plan, in general, the maximum bonus that may be paid to any Named Executive may not exceed two times his or her bonus at target for revenues and 1.5 times his or her bonus at target for operating income even if financial performance exceeds the maximum. Further, no bonus amounts will be earned by any Named Executive under the Bonus Plan for a quarter or the year if the minimum goals for that period are not achieved. Named Executives must be employed by the Company as of the end of the relevant period (quarter, six month or full fiscal year) in order to be entitled to receive payout of any bonus earned for such period, unless termination of

employment is due to death, disability or follows a change of control. The Compensation Committee must approve bonuses paid to the Named Executives before payment.

The following table shows potential bonus amounts as a percentage of salary that may be earned by the Named Executives for 2015 performance under the Plan upon achievement of their respective performance goals at target and maximum levels of performance. Under the 2015 Bonus Plan achievement in relation to performance goals below the target level results in a decreasing bonus, and if achievement fails to meet the minimum performance goals the Named Executive is not entitled to any bonus.

<u>Executive Officer and Title</u>	<u>Cash Bonus Payable if Target Goals Achieved</u>	<u>Cash Bonus Payable if Maximum Goals Achieved</u>
Roger H. D. Lacey Vice Chairman and CEO	\$150,000	\$222,555
Edwin C. Freeman Chief Financial Officer	\$116,699	\$172,913
Bruce Blackwood President & General Manager, Suttle, Inc.	\$117,856	\$206,247
Scott Otis President & General Manager, Transition Networks, Inc.	\$113,608	\$161,891
Scott Fluegge President & General Manager, JDL Technologies, Inc.	\$105,029	\$147,041

Grant of PSU Awards under the Long Term Incentive Plan

On February 27, 2015, pursuant to the Company’s Long Term Incentive Compensation Plan (the “LTI Plan”) the Compensation Committee determined the overall design and other features of the Company’s LTI Plan for the 2015 through 2017 performance period (the “2015-2017 Period”) as applied to the Named Executives. For the 2015-2017 Period, it was determined that performance measures, weighting of performance measures, specific “minimum,” “target” and “maximum” goals for each performance measure, the dollar value of opportunities for the Named Executives to earn incentive compensation, in each case, at target and maximum level of performance and form of payment would be established at the beginning of each year, and that achievement in relation to target goals in each year would be determined and vested as of the end of the year, but with payment of such incentive compensation contingent upon continued employment through the end of the 2015-2017 Period. For 2015, the first year of the three year period, it was determined that the performance measures and the minimum, target and maximum goals for business unit leaders would be specific to their business unit and that the CEO and CFO would (i) earn 80% of their potential long term incentive opportunity based on the success of the three business units in relation to achievement of their respective goals, weighted 54.5% with respect to Suttle’s performance, 36.8% as to Transition Network’s performance and 8.7% as to JDL’s performance and (ii) earn 20% of their potential long term incentive opportunity based on performance measures to be determined and approved by the Compensation Committee prior to March 31, 2015. The 2015 business unit performance measures and their percentage weighting established for Suttle and JDL were Revenue (50%) and Operating Income (50%), and the 2015 business unit performance measures and their percentage weighting for Transition Networks were Revenue (50%) and New Product Revenue (50%). With respect to each Named Executive, the opportunity to earn long term compensation is initially determined as a dollar value that is a percentage of the Executive’s Base salary. In each case this dollar value will be divided by the average price of the Company’s stock over the 20 business day period beginning March 2, 2015, with the number so determined becoming an award of the same number of Performance Share Units (“PSUs”), with each PSU representing the potential issuance of one share of Company stock. At the completion of 2015, the Compensation Committee will assess actual performance against the performance measures established for each Named Executive and determine

the number of shares of Company stock to be issued to each Named Executive following the end of the 2015-2017 Period.

The following table shows the dollar value of the PSUs awarded to each of the Named Executive that would result in the issuance of shares of Company common stock after the end of the 2015-2017 Period based on achievement of applicable 2015 target and maximum goals. Achievement below the target goal for each performance measure will result in a decreased number of shares being issued, and if achievement fails to meet any of the applicable minimum performance goals, the Named Executive will not be issued any shares under the PSUs that he was granted.

<u>Executive Officer and Title</u>	<u>Dollar Value of PSUs Awarded in 2015 Under the Company's Long-term Incentive Plan</u>	
	<u>If Target Goals Achieved</u>	<u>If Maximum Goals Achieved</u>
Roger H. D. Lacey Vice Chairman and CEO	\$96,250	\$144,375
Edwin C. Freeman Chief Financial Officer	\$74,263	\$111,395
Bruce Blackwood President & General Manager, Suttle Inc.	\$74,999	\$112,499
Scott Otis President & General Manager, Transition Networks, Inc.	\$72,296	\$108,444
Scott Fluegge President & General Manager, JDL Technologies	\$66,837	\$100,255

Stock Options

Consistent with past practice, the Company will award stock options to the Named Executives on March 17, 2015.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by Item 401 under Regulation S-K, to the extent applicable to the Company's directors, will be set forth under the caption "Election of Directors" in the Company's definitive proxy material for its May 21, 2015 Annual Meeting of Shareholders ("2015 Proxy Materials") and is incorporated herein by reference. The information required with respect to the Company's officers by paragraph (b) of Item 401 is set forth under Item 1(c) (3) of this Form 10-K.

The information required by Item 405 regarding compliance with Section 16 (a) will be set forth under the caption "Section 16(a) Beneficial Ownership Reporting Compliance" in the Company's 2015 Proxy Materials, and is incorporated herein by reference.

Code of Ethics

The Company has adopted a Code of Ethics applicable to all officers of the Company as well as certain other key accounting personnel. A copy of the Code of Ethics can be obtained free of charge upon written request directed to the Company's Assistant Secretary at the executive offices of the Company.

The information required called for by Item 407 regarding corporate governance will be set forth under the caption "Corporate Governance and Board Matters" in the 2015 Proxy Materials and is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION

The information called for by Item 402 under Regulation S-K, will be set forth under the caption “Executive Compensation” in the Company’s 2015 Proxy Materials, and is expressly incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information called for by Item 403 under Regulation S-K will be set forth under the captions “Security Ownership of Certain Beneficial Owners and Management” and “Election of Directors” in the Company’s 2015 Proxy Materials, and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by Item 404 under Regulation S-K will be set forth under the caption “Certain Relationship and Related Transaction” in the Company’s 2015 Proxy Materials, and is incorporated herein by reference.

The information required by Item 407(a) will be set forth in the Company’s 2015 Proxy Materials caption “Corporate Governance and Board Matters” and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by Item 14 of Form 10K and 9(e) of Schedule 14A will be set forth under the caption “Principal Accountant Fees and Services” in the Company’s 2015 Proxy Materials, and is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) (1) **Consolidated Financial Statements**

The following Consolidated Financial Statements of Communications Systems, Inc. and subsidiaries appear at pages 32 to 52 herein:

- Report of Independent Registered Public Accounting Firm
- Consolidated Balance Sheets as of December 31, 2014 and 2013
- Consolidated Statements of Income (Loss) and Comprehensive Income (Loss) for the years ended December 31, 2014, 2013 and 2012
- Consolidated Statements of Changes in Stockholders’ Equity for the years ended December 31, 2014, 2013 and 2012
- Consolidated Statements of Cash Flows for the years ended December 31, 2014, 2013 and 2012
- Notes to Consolidated Financial Statements

(a) (2) **Consolidated Financial Statement Schedule**

The following financial statement schedule is being filed as part of this Form 10-K Report:

Schedule II - Valuation and Qualifying Accounts and Reserves

All other schedules are omitted as the required information is inapplicable or the information is presented in the consolidated financial statements or related notes.

(a) (3) **Exhibits**

The exhibits which accompany or are incorporated by reference in this report, including all exhibits required to be filed with this report pursuant to Item 601 of Regulation S-K, including each management or compensatory plan or arrangement are described on the Exhibit Index, which is at pages 62 through 65 of this report.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

COMMUNICATIONS SYSTEMS, INC.

Dated: March 12, 2015

Curtis Sampson Entrepreneurship Principles

- Know the name, shake the hands, value every employee.
- Do more than people expect of you, treat everyone fairly.
- Avoid being critical of employees when they try their best but fail. As long as they learn along the way they are on the right track.
- Delegate responsibility as far as possible, people are always more entrepreneurial if allowed their own ideas.
- Run the company like it was your own.

RememberOpportunity + Preparation = Success
